Subject: Submission of half yearly Compliance report of Conditions stipulated in EC granted to our 2X10 MW CPP at USHA MARTIN LIMITED, Tatisilwai, Ranchi for the period Oct'23 to March'24

Ref.: EC letter no: J-13012/122/2008-1A.II (T) dated 07-04-2011

Dear Sir,

We are herewith submitting the half yearly Compliance report of Conditions stipulated in EC granted to our 2X10 MW Captive Power Plant, M/s USHA MARTIN LIMITED, Tatisilwai, Ranchi for the period Oct'23 to March'24 for your kind perusal and reference.

Thanking you and best regards,

Yours faithfully,

For Usha Martin Ltd., Ranchi

Sub: Coal Based Captive Thermal Power Plant of 2x10 MW at Village Tatisilwai, District Ranchi in Jharkhand by M/s. Usha Martin Ltd. – reg. amendment of EC regarding permission to transport coal by road.

Sir,

The undersigned is directed to refer your online application No. **IA/JH/THE/138854/2020** dated 27.01.2020 for seeking permission to transport coal by road for the above mentioned project.

2. It has been noted that Environmental Clearance (EC) for the above project was accorded vide letter dated 07.04.2011. Subsequently, the Ministry vide letter dated 9.10.2019 granted:-

- a) ex-post facto permission for sourcing of coal through e-auction and transportation by road for a period of three years i.e. till 31.03.2018;
- b) permission to transport coal by road for further period of three years, i.e. till 31.03.2021; from
 - i. Sikini mines- 124.4 km
 - ii. Magadh Mines- 145.5 km
 - iii. Amrapali mines- 141.9 km, and
- c) amendments regarding sourcing coal through e-auction, land requirement to 22.437 acres instead of 12.278 acres and ash content to 41.7% instead of 34%.

3. It has been noted that the 2x10 MW Captive Power Plant was established to ensure the uninterrupted power supply to Steel Wire and Wire rope plant to prevent breakage of wire to ensure internationally acceptable wire ropes particularly for use in critical safety applications. The wire rope plant is providing employment to 4400 workmen.

4. It was informed that the Hon'ble Supreme Court vide its judgment dated 25.8.2014 and 24.9.2014 cancelled allocation of Lohari Coal Block which was to cater coal requirement to the captive power plant. The plant started its operations with commissioning of 1st Unit on 31.3.2012 and 2nd Unit on 31.12.2012. At present, the company has been sourcing coal through e-auction from nearby mines of Central Coalfields Ltd. But during recent times e-auction is very much irregular which resulted in coal shortage as well as high production costs. It was informed that the company was forced to stop its production of one unit for 82 days in the the year 2019.

5. It has been informed that the auctioned quantity has reduced by 47% and 59% in FY 19 and FY20 (till Dec 2019) respectively as compared to quantity offered during FY18 which reduced the chances of winning the required quantity of coal for the Power Plant.

6. The Coal requirement for the power plant is 0.183 MTPA. The coal quantity of 500 tonnes per day involving to & fro movement of 40 tippers per day with capacity 25 tonnes. It has been now proposed to procure coal by road from a) West Bokaro Ghato Mines & Jamadoba Mines of Tata Steel, and b) Heavy Engineering Corporation Ltd., Ranchi through Bilateral agreement/Window Sale. The Traffic Impact Assessment Report has been submitted for the proposed routes of coal transportation. The details of these routes are as below:

Routes	Length, km	Length of Stretch (in km) w.r.t. Type				Type of road
		Single Lane (<5.5 m)	Intermediate (≥ 5.5 m)	Two Lane (≥ 7 m)	Multi-lane (≥ 10 m)	
Route-1: HEC Plant to CPP.	64.77	0.90	2.80	2.02	59.05	Black top: 64.57 & Concrete: 0.2 km
Route-2: West Bokaro OC coal mine of Tata Steel to CPP.	66.76	0.90	0.00	0.30	65.56	Black Top: 66.76 km

7. The traffic sufficiency assessment has been estimated. The percentage utilisation of road after taking into consideration of existing traffic and incremental is in the range of 32-116%. Where existing traffic is exceeding the design service volume of the road, it has been proposed to restrict the movement of trucks to the time period between 9 pm to 8 am only, when the traffic is lean.

8. The baseline air quality has been collected at various locations along the route. Incremental concentrations have been predicted and the cumulative concentrations including baseline data are within the ambient air quality standards.

9. It has been informed that all other environmental and safety measures will be implemented such as dust control measures at unloading point, covering trucks with tarpaulin cover, maintenance of vehicles and following Central Motor Vehicles Act and Rules for maintaining road safety.

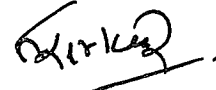

10. The matter was placed before the Re-constituted Expert Appraisal Committee (Thermal Power) in its meetings held on 21.2.2020. In acceptance of the

recommendations of the EAC in its meeting held on 21.2.2020 and in view of the information/documents/clarifications furnished by you, with respect to the above mentioned power project, **the Ministry hereby accords permission to transport coal by road through additional routes from West Bokaro Ghato Mines & Jamadoba Mines of Tata Steel Ltd. and Heavy Heavy Engineering Corporation Ltd., Ranchi for a period two years** subject to following additional conditions:

- i. The coal shall be transported through Route-1: HECL, Ranchi during lean traffic period (9 pm to till 8 am).
 - ii. Water sprinkling is to be carried out at the road stretch near Tatisilwai village to control secondary dust.
11. All other conditions mentioned in the EC vide dated 07.04.2011 and amendment letter dated 9.10.2019 shall remain the same, as applicable.

This issues with the approval of the Competent Authority.

Yours faithfully,

(Dr. S. Kerketta)

Dated: 09.10.2019

To

M/s Usha Martin Ltd.
2A, Shakespeare Sarani,
Kolkata- 700 071.

Tel. No. 033-22823985/39800300; Fax: 033-22829029/39800400.

Sub: Coal Based Captive Thermal Power Plant of 2x10 MW at Village Tatisilwai, District Ranchi in Jharkhand by M/s. Usha Martin Ltd. - reg. amendment of EC regarding permission to transport coal by road, sourcing of coal, land requirement and ash content in coal.

Sir,

This has reference to your online application No. **IA/JH/THE/10337/2011** dated 25.02.2015 and 16.1.2015 and the documents submitted vide your letters dated 26.4.2018 and 11.6.2019 on the above subject. It is noted that Environmental Clearance (EC) for the above project was accorded vide letter dated 07.04.2011. As per the said EC, the coal shall be obtained from captive Lohari coal block in Jharkhand and road transportation of coal was permitted for a limited period of three years only. Vide your application dated 25.2.2015, it has been requested for sourcing of coal through e-auction and extension of permission for temporary road transportation of coal for three years Further, you have also requested for corrections in the EC as per EIA/EMP report regarding land requirement and ash content in coal.

2. The specific condition 4A(i) of the EC dated 7.4.2011 stipulates as follows:

Road transportation of coal shall be permitted for a limited period of 36 months only. The project proponent shall shift to railway transportation thereafter. The project proponent shall be vicariously responsible for liabilities incurred for road transportation such as accidental damages to public, coal fines emission from transporting trucks etc. The project proponent shall immediately start its action plan for rail transportation with consultation with the Railways and shall submit half yearly action taken report to the Ministry on the matter."

3. It has been informed that Unit-1 (1x10 MW) and Unit-2 (1x10 MW) have been commissioned in March, 2012 and December, 2012 respectively. The coal requirement for the project is 1.25 Lakh Tonnes per annum (500 Tons/day involving 20 trucks with 25 ton capacity). Nearest railway stations are Tatisilwai (1 km) and Hatia (15 km). The Hatia station has only outward transport facility and Tatisilwai has no siding for coal loading and unloading.

4. It has been informed that the Lohari coal block, Jharkhand which was allocated for this captive power plant has been de-allocated by the Supreme Court. The coal is currently procured through e-auction carried by M/s Central Coalfields Ltd. or M/s Jharkhand State Mineral Development Corporation since the commissioning of the power plant.

5. The coal has been transported by the road since commissioning of the power plant. The distance of road transportation is in the range of 83-100 km depending upon coal mine.

6. It has been informed that the quantity of coal transported by road since its commissioning is as follows:

Sr.No	Year	Quantity (MT)
1	FY13	63,782
2	FY14	67,480
3	FY15	1,12,995
4	FY16	1,14,883
5	FY17	1,17,258
6	FY18	1,25,134
Total		6,01,532

7. It has been informed that the Hatia Railway station is at 15 km and there is no infrastructure to deal with inward coal rakes. Further, Hatia railway station is situated in populated area and road transportation from Hatia to Tatisilwai will be through Ranchi city during limited hours. The Tatisilwai Railway station is at 01 km from the power plant and the required infrastructure to deal with inward coal is not available.

8. The additional information sought by the Ministry has not been submitted. Accordingly, the proposal dated 25.2.2015 has been delisted from the pendency of the Ministry. As the coal transportation has been taken place by road without Ministry's approval after 31.3.2015, the Ministry directed Jharkhand State Pollution Control Board to take a credible action u/s 19 of E(P) Act, 1986. Subsequently, Jharkhand State Pollution Control Board vide letter dated 7.6.2019 informed that a complaint vide No.2472/10 has been filed in the Court of Chief Judicial Magistrate for transporting coal by road without formal approval from the Ministry.

9. It has been noted that the proposal for further extension of permission for road transportation till the railway infrastructure is established, has been submitted in the Ministry.

10. It has been informed that the requirement of coal for the present power plant (2x10 MW) is in the range of 1.25 Lakh Tonnes per annum. It is not feasible to establish a railway siding within the plant area as it requires additional land acquisition. The area of captive power plant is 22.437 acres out of which main plant occupies 12.278 acres and rest of the area is occupied by the utilities such as coal yard, rain water harvesting system, plantation, ash dyke, weigh bridge and reservoir, etc. Further, there is no private land available adjacent to the plant area.

11. It has been informed that the Lohari coal block (near Daltonganj, Jharkhand) which was linked to the plant for coal supply has been de-allocated by the Supreme Court. Hence, there is no definite source available now and company is procuring coal through e-auction from M/s Central Coalfields Ltd. (M/s CCL) and M/s Jharkhand State Mineral Development Corporation. Further, all coal mines of M/s CCL are in the vicinity as well as within the 200 km from the plant. The e-auction coal is supplied only by road mode based on low priority given for Captive Power Plant as non-core consumer.

12. It has been informed that the peak coal requirement is 500 TPD at 100% Plant Load Factor (PLF). M/s CCL has issued a circular and informed that the

lifting of coal from its mines shall be through Road mode only to non-core consumers. The Circular of M/s CCL dated 9.9.2014 states that the allotment of coal from October, 2014 onwards will be made by rail mode only nearby consumers of Captive Power Plant/sponge iron.

13. It has been noted that M/s Mecon Ltd., Ranchi has carried out feasibility study for laying railway siding and line from the nearest take off point and submitted the report on 13.5.2019. The report has mentioned that coal unloading facilities at plant to accommodate full rake, the area of 870 m length x 25 m width (21,750 m²/ 2.175 Ha) is required. Whereas, the plant area of 22.437 acres measures 345 m (West- East) x 325 m (South-North) and hence construction of private siding is not possible. It has concluded that the plant cannot accommodate full or half rake unloading railway yard as well as 8 wagons unloading yard on present land profile of the plant. Further, there is no vacant private land available for siding beyond railway boundary. The coal rake from Tori/Barkakana end on existing up line cannot enter in to the plant which is located on down side.

14. It has been informed that the quantity of coal required is only 4 rakes per month (500 Tons/day). Considering the low quantities, establishing private railway siding is not economically viable and the asset may end up in the category of Non Performing Assets (NPA) and will also make the Wire Rope plant unviable.

15. The three routes proposed for road transportation are viz. Route-1: Sikni mines-124.4, Route-2: Magadh Mine- 145.5 km and Route-3: Amrapali Mine-141.9 km.

Route No.	From	Length of the route (km)	Remarks
Route-1	Sikni Mines to Plant	124.4 km	NH-5: 83 km NH-75: 46 km 6-lane Ring road: 23.5 km
Route-2	Magadh Mine to Plant	145.5 km (Route-1: 124.4 km+ 21.1 km)	Additional 21 km is NH-99
Route-3	Amrapali mine to Plant	141.9 km	NH-33: 84 km SH-7: 47 km

16. The maximum part of the route considered is a highway passing through rural areas. These highways are NH-75, NH-99, NH-33 and SH-7, which are considered as an all-purpose road, with no control of access and with heterogeneous mix of fast and slow-moving vehicles. Width of the roads in the proposed route is provided as below:

Route	Length	Lane				Type of road
		Single Lane (<5.5 m)	Intermediate Lane (5.5-7 m)	Two Lane (7-10 m)	Multi lane (≥10 m)	
Route-1	124.4 km	0.9 km	4.2 km	33.4 km	85.9 km	Black Top: 63% Concrete: 37%
Route-2	145.5 km	2.9 km	4.2 km	53.2 km	86.2 km	Black Top: 68%

						Concrete: 32%
Route- 3	141.9 km	0.9 km	Nil	46.6 km	94.4 km	Black Top: 100%

17. The daily coal requirement is 500 MT/day which involve 25 trucks (50 to and fro) with the capacity of 20 Tons. The percentage utilisation of the roads including the project traffic is in the range of 48.5-96.8%. Thus the roads at all points have sufficient capacity to accommodate present and proposed traffic for next three years.

18. All the three routes considered for the study are capable to support existing as well as projected traffic loads at LoS C in rural as well as urban areas. Only at one census point, Tati village, movement is and shall be restricted to night hours only. The projected traffic volume after five year plus, with its natural growth, shall be vary between 14.3% to 165.3% of DSV on roads passing through Urban areas.

19. The maximum ground level concentrations due to proposed traffic have been computed by using a dispersion modelling software and the details are as below:

Parameter	Highest AAQ baseline ($\mu\text{g}/\text{m}^3$)	Incremental Values ($\mu\text{g}/\text{m}^3$)	Resultant concentrations ($\mu\text{g}/\text{m}^3$)	National Standard ($\mu\text{g}/\text{m}^3$)
PM ₁₀	82.2	4.41	86.61	100
PM _{2.5}	47.8	1.07	48.87	60
SO ₂	13	0.27	13.27	80
NO ₂	22.2	1.92	24.12	80

20. It has been informed that the vehicles will be covered with tarpaulin sheet, have PUC and have spill-proof transportation. Vehicles having fitness certificate shall be allowed to ply.

22. It has been noted that a Committee involving MoC, MoP, M/s CIL Ltd., Railway Board and other major stakeholders, has been constituted to review the status of rail connectivity infrastructure at the plant site & pit head/coal mines area and need for extension of road transportation for various power projects and coal mines.

21. The matter was placed before the Re-constituted Expert Appraisal Committee (Thermal Power) in its meetings held during 19th-20th May, 2015, 27.03.2019 and 26.6.2019. In acceptance of the recommendations of the EAC in its meeting held on 26.6.2019 and in view of the information/documents/clarifications furnished by you, with respect to the above mentioned power project, **the Ministry hereby accords the following:**

- a) **Ex-post facto permission for sourcing of coal through e-auction and transportation by road for a period of three years i.e. till 31.03.2018;**
- b) **Permission to transport coal by road for further period of three years, i.e. till 31.03.2021; A final decision to allow road permanently will be taken after the recommendations of the Committee constituted for formulating the policy on coal transportation.**
- c) **Amendments regarding sourcing coal through e-auction, land requirement of the project shall be 22.437 acres instead of 12.278 acres and restriction of ash content in coal shall be 41.7% instead of**

34% are allowed.

21. The following additional conditions are stipulated for compliance.
- i. The status of the complaint No.C-2472/19 filed before the Chief Judicial Magistrate, Ranchi by the Jharkhand State Pollution Control Board for transporting coal by road without Ministry's permission is to be furnished along with Six Monthly Compliance Report.
 - ii. The status of complaint No.C-2472/19 filed before the Chief Judicial Magistrate, Ranchi by the Jharkhand State Pollution Control Board u/s 19 of Environment (Protection) Act, 1986 for transporting coal by road without Ministry's permission shall be submitted along with Six Monthly Compliance Report. Copies of the orders passed by the Chief Judicial Magistrate shall also be submitted.
 - iii. Coal shall be procured through e-auction only and not from open market.
 - iv. The transportation by road shall be through mechanically covered trucks to the extent feasible, else through trucks firmly covered by tarpaulin sheet.
 - v. Possibility of upgrading road shoulders into pakka road in consultation with the State Govt. be explored.
 - vi. Periodic maintenance of the road shall be done by the project proponent at its own cost and shall also facilitate the traffic control on the road in consultation with the State Govt.
 - vii. Avenue plantation shall be carried out in consultation with Social Forestry Department and NHAI or PWD along the routes proposed for transportation. The progress report such as number of saplings planted, length of road covered, survival rate, expenditure on maintenance (tree guard, watering and manure supply) shall be submitted along with six monthly compliance report.
 - viii. The PP shall advertise in the local leading newspapers and place on the website, the temporary permission accorded by the Ministry as a part of public information.
 - ix. The SO₂ and NO_x emissions from the flue gas shall be restricted to below 600 mg/Nm³ and 600 mg/Nm³, respectively.
22. All other conditions mentioned in the EC vide dated 07.04.2011 shall remain the same.

This issues with the approval of the Competent Authority.

Yours faithfully,

(Dr. S. Kerketta)

Aliganj, New Delhi-110003

Dated: 10.10.2019

Office Order

Sub: Coal Based Captive Thermal Power Plant of 2x10 MW at Village Tatisilwai, District Ranchi in Jharkhand by M/s. Usha Martin Ltd. - reg. Directions under Section 5 of Environment (Protection) Act, 1986.

The Environmental Clearance (EC) for the above mentioned project was accorded vide Ministry's letter dated 07.04.2011. As per the said EC, the coal shall be obtained from captive Lohari coal block in Jharkhand and road transportation of coal was permitted for a limited period of three years only.

2. The specific condition 4A(i) of the EC dated 7.4.2011 stipulates as follows:

Road transportation of coal shall be permitted for a limited period of 36 months only. The project proponent shall shift to railway transportation thereafter. The project proponent shall be vicariously responsible for liabilities incurred for road transportation such as accidental damages to public, coal fines emission from transporting trucks etc. The project proponent shall immediately start its action plan for rail transportation with consultation with the Railways and shall submit half yearly action taken report to the Ministry on the matter."

3. The Unit-1 (1x10 MW) and Unit-2 (1x10 MW) have been commissioned in March, 2012 and December, 2012 respectively. The coal requirement for the project is 1.25 Lakh Tonnes per annum (500 Tons/day involving 20 trucks with 25 ton capacity). Nearest railway stations are Tatisilwai (1 km) and Hatia (15 km). The Hatia station has only outward transport facility and Tatisilwai has no siding for coal loading and unloading.

4. It has been informed that the Lohari coal block, Jharkhand which was allocated for this captive power plant has been de-allocated by the Supreme Court. The coal is currently procured through e-auction carried by M/s Central Coalfields Ltd. or M/s Jharkhand State Mineral Development Corporation since the commissioning of the power plant.

5. The coal has been transported by the road since commissioning of the power plant. The distance of road transportation is in the range of 83-100 km depending upon coal mine.

6. It has been informed that the quantity of coal transported by road since its commissioning is as follows:

Sr.No	Year	Quantity (MT)
1	FY13	63,782
2	FY14	67,480
3	FY15	1,12,995
4	FY16	1,14,883
5	FY17	1,17,258
6	FY18	1,25,134
Total		6,01,532

7. The proposal for extension of permission for road transportation has been recommended by the EAC (Thermal Power) in its meeting held during 19th -20th May, 2015. However, the approval for transportation of coal by road could not be accorded as certain requisite information was pending from the Project Proponent. The Jharkhand State Pollution Control Board has filed a complaint vide No.C-2472/19 before the Chief Judicial Magistrate, Ranchi by for transporting coal by road without Ministry's permission.

8. Further, the Ministry vide letter dated 09.10.2019 granted ex-post facto permission for sourcing of coal through e-auction and transportation by road for a period of three years i.e. till 31.03.2018; permission to transport coal by road for further period of three years, i.e. till 31.03.2021; and amendments regarding sourcing coal through e-auction, land requirement of 22.437 acres instead of 12.278 acres and restriction of ash content in coal shall be 41.7% instead of 34%, etc.

9. In view of the above, **the Jharkhand State Pollution Control Board is hereby directed to carry out the environmental damage assessment for transporting coal by road from March, 2015 till March, 2018 by the M/s Usha Martin Ltd. without Ministry's approval and furnish a copy of its report to the Chief Judicial Magistrate, Ranchi for further action duly endorsing a copy to this Ministry.**

This issues with the approval of the Competent Authority.

Sub: Coal Based Captive Thermal Power Plant of 2x10 MW at Village Tatisilwai, District Ranchi in Jharkhand by M/s. Usha Martin Ltd. – reg. amendment of EC regarding permission to transport coal by road.

Sir,

The undersigned is directed to refer your online application No. **IA/JH/THE/138854/2020** dated 27.01.2020 for seeking permission to transport coal by road for the above mentioned project.

2. It has been noted that Environmental Clearance (EC) for the above project was accorded vide letter dated 07.04.2011. Subsequently, the Ministry vide letter dated 9.10.2019 granted:-

- a) ex-post facto permission for sourcing of coal through e-auction and transportation by road for a period of three years i.e. till 31.03.2018;
- b) permission to transport coal by road for further period of three years, i.e. till 31.03.2021; from
 - i. Sikini mines- 124.4 km
 - ii. Magadh Mines- 145.5 km
 - iii. Amrapali mines- 141.9 km, and
- c) amendments regarding sourcing coal through e-auction, land requirement to 22.437 acres instead of 12.278 acres and ash content to 41.7% instead of 34%.

3. It has been noted that the 2x10 MW Captive Power Plant was established to ensure the uninterrupted power supply to Steel Wire and Wire rope plant to prevent breakage of wire to ensure internationally acceptable wire ropes particularly for use in critical safety applications. The wire rope plant is providing employment to 4400 workmen.

4. It was informed that the Hon'ble Supreme Court vide its judgment dated 25.8.2014 and 24.9.2014 cancelled allocation of Lohari Coal Block which was to cater coal requirement to the captive power plant. The plant started its operations with commissioning of 1st Unit on 31.3.2012 and 2nd Unit on 31.12.2012. At present, the company has been sourcing coal through e-auction from nearby mines of Central Coalfields Ltd. But during recent times e-auction is very much irregular which resulted in coal shortage as well as high production costs. It was informed that the company was forced to stop its production of one unit for 82 days in the the year 2019.

5. It has been informed that the auctioned quantity has reduced by 47% and 59% in FY 19 and FY20 (till Dec 2019) respectively as compared to quantity offered during FY18 which reduced the chances of winning the required quantity of coal for the Power Plant.

6. The Coal requirement for the power plant is 0.183 MTPA. The coal quantity of 500 tonnes per day involving to & fro movement of 40 tippers per day with capacity 25 tonnes. It has been now proposed to procure coal by road from a) West Bokaro Ghato Mines & Jamadoba Mines of Tata Steel, and b) Heavy Engineering Corporation Ltd., Ranchi through Bilateral agreement/Window Sale. The Traffic Impact Assessment Report has been submitted for the proposed routes of coal transportation. The details of these routes are as below:

Routes	Length, km	Length of Stretch (in km) w.r.t. Type				Type of road
		Single Lane (<5.5 m)	Intermediate (≥ 5.5 m)	Two Lane (≥ 7 m)	Multi-lane (≥ 10 m)	
Route-1: HEC Plant to CPP.	64.77	0.90	2.80	2.02	59.05	Black top: 64.57 & Concrete: 0.2 km
Route-2: West Bokaro OC coal mine of Tata Steel to CPP.	66.76	0.90	0.00	0.30	65.56	Black Top: 66.76 km

7. The traffic sufficiency assessment has been estimated. The percentage utilisation of road after taking into consideration of existing traffic and incremental is in the range of 32-116%. Where existing traffic is exceeding the design service volume of the road, it has been proposed to restrict the movement of trucks to the time period between 9 pm to 8 am only, when the traffic is lean.

8. The baseline air quality has been collected at various locations along the route. Incremental concentrations have been predicted and the cumulative concentrations including baseline data are within the ambient air quality standards.

9. It has been informed that all other environmental and safety measures will be implemented such as dust control measures at unloading point, covering trucks with tarpaulin cover, maintenance of vehicles and following Central Motor Vehicles Act and Rules for maintaining road safety.

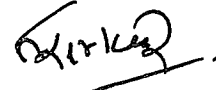

10. The matter was placed before the Re-constituted Expert Appraisal Committee (Thermal Power) in its meetings held on 21.2.2020. In acceptance of the

recommendations of the EAC in its meeting held on 21.2.2020 and in view of the information/documents/clarifications furnished by you, with respect to the above mentioned power project, **the Ministry hereby accords permission to transport coal by road through additional routes from West Bokaro Ghato Mines & Jamadoba Mines of Tata Steel Ltd. and Heavy Heavy Engineering Corporation Ltd., Ranchi for a period two years** subject to following additional conditions:

- i. The coal shall be transported through Route-1: HECL, Ranchi during lean traffic period (9 pm to till 8 am).
 - ii. Water sprinkling is to be carried out at the road stretch near Tatisilwai village to control secondary dust.
11. All other conditions mentioned in the EC vide dated 07.04.2011 and amendment letter dated 9.10.2019 shall remain the same, as applicable.

This issues with the approval of the Competent Authority.

Yours faithfully,

(Dr. S. Kerketta)

Ref. Office Memorandum on dated 11th Nov 2020

Respected Sir,

Ref. to your office Memorandum on dated 11th Nov 2020, we are hereby submitting the proposed scheme of sourcing & transportation of coal for your kind reference.

Location of Source	Proposed Quantity(MMT)	Distance from Mines/Source	Mode of transportation	Quality			
				Ash %	Sulphur %	Moisture %	Calorific Value (Kcal/Kg)
Different CCL mines (FSA)	0.096	100-150 Kms	By Road through Tarpaulin covered Truck	33-40%	<0.3%	<10%	3500-4500
Different CCL mines (E-auction coal from Amrapali, Ashoka etc)	0.071	110 -125 kms		35-40%	<0.3%	<10%	3500-4501
West Bokaro coal mine of Tata Steel	0.016	60-70 kms		35-40%	<0.3%	<10%	3500-4502

Thanking you & assuring you of our best attention.

LOI

Ref No. CCL/HQ/C-4/FSA/ CPP (T-V)/2021-22/ 2618

Dated: 15.12.2021

To,
Sri Chandan Jha,
M/s Usha Martin Limited,
Purulia Road Tatisilwai Ranchi Pin 835103, RANCHI, 835103, Jharkhand,
e-mail: chandan_jha@ushamartin.co.in

Subject: Declaration of Successful Bidder pursuant to CPP sub-sector Auction Process.

Dear Sir/ Madam,

Pursuant to the Scheme Document dated October'21 ("**Scheme Document**"), I am directed to declare **M/s Usha Martin Limited** as the Successful Bidder for award of the quantity of coal specified in **Schedule 1**. This declaration is in pursuance of the provisions contained in the Scheme Document and the fulfilment of Conditions to Auction and the Bid submitted by the Bidder for the Specified End Use Plant: **Usha Martin Limited (20 MW)**.

Details of the Specified End Use Plant, allocated quantity of coal, the Winning Premium and other details are set out in **Schedule 1**.

Pursuant to Clause 7 and Clause 3.5.4 of the Scheme Document, the Successful Bidder is required to submit the Performance Security within the timelines stipulated in Clause 3.5.4 and also provide the documents specified in Annexure IX to the *relevant Subsidiary* within **75 days** of issuance of this letter of intent.

The Successful Bidder shall be required to depute an Authorised Signatory to execute the Fuel Supply Agreement (the "**Agreement**") on its behalf. The Authorised Signatory deputed by the Successful Bidder should be present at the aforementioned time and place along with: (a) original documents confirming identity of such person along with a self-attested photocopy of the same; (b) true copy of power of attorney in favour of the Authorised Signatory to execute the Agreement including the extract of the charter documents or documents such as a board or shareholders resolution authorizing the execution of such power of attorney and/or the Agreement.

The Subsidiary may, at any time prior to execution of the Agreement, determine whether the documents, information and/ or payments in relation to the Conditions to Auction have been submitted or received from the Bidder in accordance with the requirements of this Scheme Document. The Subsidiary reserves the right to cancel this LOI, disqualify the Bidder and forfeit

the Process Fee and the Bid Security if it is of the opinion that the requirements of the Scheme Document and the LOI in this regard have not been duly satisfied.

The Authorised Signatory should also procure 2 (two) sets of non-judicial stamp papers of **Rs. 100** each for execution of the Agreement and submit the same at the time of execution of the Agreement.

This letter of intent is only indicative of the quantity allocated to you and any entitlement to such quantities of coal are subject to execution of the Agreement in accordance with the provisions of the Scheme Document and satisfaction of the conditions prescribed in the Agreement.

A. INFORMATION OF PHYSICAL CHARACTERISTICS OF STACK

Stack number if any	: Stack – 1 (Power Plant)
Emission due to	: Burning of Coal
Material of construction of stack	: Concreate
Shape of stack	: Circular
Whether stack is provided with permanent platform/ ladder	: Yes
Height of the stack from ground level (in meter)	: 70
Height of the sampling point from ground level (in meter)	: 22
Diameter of the stack at sampling point (in meter)	: 1.485
Fuel used & Consumption	: Coal & 480 MT/Day
Production Capacity	: 10 MW x 2
Stack connected to	: Pollution Control System (ESP)

B. DETAIL OF STACK EMISSION SAMPLING AND TEST REPORT

Parameters (Units)	Results	Test Method
Ambient air temperature (⁰ C)	24	IS 11255 (Part 3): 2008 RA 2013
Stack gas temperature, (⁰ C)	112	IS 11255 (Part 3): 2008 RA 2013
Barometric Pressure, (mm of Hg)	762	-
Stack gas velocity, (m/sec)	11.86	IS 11255 (Part 3): 2008 RA 2013
Volumetric flow rate (in Nm ³ /hr),	57,272	IS 11255 (Part 3): 2008 RA 2013
Emission rate (in kg/hr)	2.405	IS 11255 (Part 3): 2008 RA 2013
Conc. of Carbon dioxide, (% v/v by Orsat method)	<0.2	IS 13270; 1992 RA 2019
Conc. of Carbon monoxide, (% v/v by Orsat method)	6.2	IS 13270; 1992 RA 2019
Conc. of Sulphur Dioxides, mg/Nm ³	242	IS: 11255 (Part 2) 1985 RA 2019
Conc. of Oxides of Nitrogen, mg/Nm ³	68	IS: 11255 (Part 7) 2005 RA 2017
Conc. of Particulate Matter, mg/Nm ³	42	IS: 11255 (Part 1) 1985 RA 2019

Remarks: Dust concentration was found 42 mg/Nm³ against prescribed limit of 50 mg/Nm³.

Note:

Kind attn.: Mr. Arindam dasgupta

Dear Sir,

Subject: - Submission of detailed document of Usha Martin Industries Limited, Ranchi, Jharkhand for Yokogawa India Limited's Online Emission monitoring to JSCB and CPCB server

We would like to inform you that with reference to your order no: PP/30066/14-15 dated 26/02/15 we have successfully commissioned at Usha Martin Industries Limited for Online Emission data Monitoring data Transmission to JSPCB on 28/03/15. All the Online emission data are updating in server satisfactorily without interruption. Yokogawa Server continuously monitoring all the data in Server if any discrepancy found then same will be rectified at the earliest.

Please find enclosed here with the detailed documents for your information and future record. So request you to kindly acknowledge the same.

We would like to thank you for your kind cooperation extended to us.

Thanking you

Truly yours For Yokogawa India Limited

		Mr. Abhishek Dutta

◆ During the visit YIL engineer carried out the following jobs.

SL No	DESCRIPTION	REMARKS
1.	Emission control system is connected with OPC station (HIS0163).Through OPC interface, required tags are configured so that we can receive those tags to the prescribed system. Here through Gate OPC, tags fetching.	
2.	Through DATA LOGGER this tags are coming to the assigned system. All the assigned tags are coming successfully through DATA LOGGER in the System. Web monitoring software was installed in this system and through this software this tags are given to JPCB server via Internet.	
3.	BSNL router was used for Internet. For making this system safe from Internet virus, one UTM box- Cyberroam was installed between Internet router and logger server system.	
4.	UTM box was configured successfully. Port A is assigned for system and Port B was assigned for Internet router. Kindly do'nt Interchanges the port or disturb the configuration, because UTM box configuration was very critical one and once it get disturb, then JPCB will not able to see the data. Backup of UTM box was taken and saved in drive D and UTM box is also protected with password	
5.	The assigned data are checked through Internet, all are successfully going to JPCB. Customer wants a certification regarding this connectivity aeap for onward submission to the Ministry of Envlnroment..	
6.	Engineer of YIL left the site on 13/12/2013

Sub:- Approval of "Rain Water Harvesting" Plan submitted by you for your Captive Power Plant.

Ref:- Your letter no.UML/ CPP/EMS/GWD/RWH/11/04 dated 25.10.2011.

Sir,

Kindly refer to your Design & Plan of "Rain Water Harvesting" for Ground Water Recharging prepared by KRG Rain Water Foundation, Chennai along with associated Hydrological, Hydro- meteorological and Geophysical data of the area, submitted to this office vide your letter no-UML / CPP / EMS / GWD / RWH/11/04 dated 25.10.2011.

Your Rain Water Harvesting for Ground Water Recharging Plan envisages to recharge **77963M³** of run-off-rainwater every year, resulting in Groundwater Recharge of the order of **66269M³** annually. The recharge structures incorporated in the plan consists of **One Storage Cum Percolation Pond (SCP)** of dimensionon (Top dia-40060M and bottom dia 31.40M) and a depth of 4.60M. 4 nos. of **Recharge shafts** are also proposed in the bed of the SCP. Additionally, one no. of **Dug cum bore-well** and one no. **Recharge well with one no. Recharge shaft** is also provided for in the plan. One number of **contour bund** has also been proposed.

Demand of water in the plant, as stated in the said plan is 624M³ per day ie. 227760M³ per annum, which is being lifted from Subarnarakha River. In accordance with prevailing rules of Water Resources Department, Govt. of Jharkhand, more than 2% of above quantity (227760M³) must be recharged. 66,269M³ of rainfall runoff is proposed to be recharged per year, as per the plan submitted, after the construction of recharge structures against the mandatory requirement of 4600M³.

For further recharge, it is suggested to provide depth of recharge shafts of various recharge structures uniformly as 80M instead of 70M, 50M and 30M as proposed in the submitted Rain Water Harvesting Plan.

The plan submitted by you for "Rain Water Harvesting" is approved subject to the following conditions: -

1. Your entire "Rain Water Harvesting" Project for Ground Water Recharging must be completed within 60 days of the approval of the plan.
2. Prior to Construction of proposed check-dam over nalla, necessary consent of the concerned authority must be obtained.
3. The Proposed Rain Water Harvesting Recharge Pits (Linear Artificial Recharge Structure) must be constructed as per standard design of filter materials and boring in the pits, annexed with this letter.
4. The Ground Water Level in at least 3-4 dug wells in and around your plant, must be monitored in the first week of every month and the data be necessarily made available to this office.
5. The quality of Ground Water in and around the plant area must be monitored periodically (every 6 months) and the data be necessarily made available to this office and to Jharkhand State Pollution Control Board, Durgam, Ranchi.
6. The Recharge Pits (LARS) to be constructed by you must be maintained properly, for all times to come. The top-coarse sand-layer in the pit, must be changed every alternate year, before the onset of monsoon.
7. The Completion Report of the entire project within the stipulated period (60 days), must be communicated to this office as well as to Jharkhand State Pollution Control Board, immediately after completion of the project.
8. **"This Plant has elaborate Rain Water Harvesting Facility"**, must also be displayed prominently at the entrance and other places of your plant, in order to sensitize more people about Rain Water Harvesting.

Enclosures: -(1) Technically Approved Rain Water Harvesting Plan.
(2) Standard Plan and Design of Recharge Pits.

Sub : To submit Completion Report on Rain Water Harvesting Plan

Ref: i) Our Letter Ref. No. UML/PP/EMS/GWD/RWH/12/01 dtd. 03.05.2012 and
ii) Your Letter Ref. No. GWD - 197/ Ranchi dtd. 21.04.2012

Dear Sir,

Further to our above letter (ref. No. UML/PP/EMS/GWD/RWH/12/01 dtd. 03/05/2012), we would like to place following facts before your good self for kind information :

We are pleased to inform you that the entire construction activities of Rain Water Harvesting Plan had already been completed by M/s. KRG Rainwater Foundation, Chennai. In this connection, M/s. KRG Rainwater Foundation, Chennai has also issued a "Completion Certificate" as well as a "Completion Report". We are hereby enclosing two sets of the above Certificate and Report for your kind perusal please. We are very confident that the Installation of Rainwater Harvesting Systems will augment the recharge of Ground Water and also improve the quality of Ground Water of not only the entire factory premises but also the surrounding communities to a considerable extent. In this connection, we would like to mention that the Land of CPP is low level land and as such we have developed the RWH System in this area. The system is working perfectly.

Being submitted for favour of information and in compliance of above referred letter.

Thanking you,

Yours' faithfully,
for USHA MARTIN LIMITED,

Compliance:

TYPICAL PART CROSS SECTION OF THE ASH DISPOSAL AREA SHOWING LINING DETAIL TO PREVENT LEACHING

Typical cross section of the Ash disposal area is given. Lining of 150 micron thick Polyethylene sheet shall be provided to ensure impermeability.

Overview

The project area of UML-CSR, Ranchi is operational in 18 Villages in and around the Captive Power Plant and covering three Blocks of Ranchi District Namely Namkum, Angara and Kanke. Usha Martin Ltd. Company's CSR (Corporate Social Responsibility) is based on Total Village Management (TVM), which are multi-pronged activities interlinked with the values of ownership, transparency and improvement at every level. TVM's 8 pillars together hold up the idea of achieving integrated, equitable and sustainable development through public-private-peoples' partnerships or P4. Usha Martin acknowledges that business and society are interdependent and there is a need to balance the interests and needs of many diverse groups in society. To be a responsible corporate citizen is a commitment and this guiding force is also reflected in the mission statement of the company - Reinforcing our commitment to safety, health, environment and the community around us... **In last twelve months (april'23 to march'24), we have reached 18445 people or community member and out of this 14018 were Schedule Tribe/ backward class people** .Impact of such activities include:

- a. Activities undertaken to improve **Natural Resource Management** includes setting up of compost pits, hand pumps repairing, motivation and convergence training for farmers, construction of new Low Land Well, pond construction. Apart of these, we promote social forestry, Kitchen garden and new technique for irrigation along with Soil test.
- b. **Health and Sanitation:** The Company address the health issues through mobile health units, health camps and facilitated in the area. It seeks to improve access to preventive health care services, engage citizens in care decisions, improve health of adolescent girls, awareness on health and seek out lower medical costs.
- c. **Skill & Livelihood Enhancement:** The company has helped in establishment of Village Institutions i.e. Gram Sabha, Farmers Groups. Goat farming, fishery development training provided by the Company has brought new perspective in community engaged in livelihood promotion in the area. SRI (Systematic Rice Intensification) initiated by company has led to increased production which in turn has yielded enhanced incomes for the households.
- d. **Education and learning activities:** The support provided by UML has enhanced the infrastructure facilities and contributed for ensuring quality education. The visible changes have been brought through increased enrolment, reduction in school dropouts and technological advancement through computers.
- e. **Infrastructure Development:** Support to village development through infrastructure development of villages. Activities were taken of Repair and maintenance of School, Jal Miner and other repair and innovation works

Natural Resource Management Activities:

- A Soil Health Card have been prepared for the use to assess the current status of soil health and, when used over time, to determine changes in soil health that are affected by land management. Total 100 farmers have been identified and have been made soil health card after duly checked and tested. A Soil Health Card displays soil health indicators and associated descriptive terms'
- Social forestry has been introduced in village and 64 farmers have been supported for this. This is **a term applied to tree planting or natural forest management designed to meet the forestry - related basic needs of rural people**. Social forestry had been defined as encompassing "any situation which intimately involves local people in a forestry activity for the direct benefit of those people
- For promotion of organic farming we have promoted **NADEP compost & Compost pit, Low cost vermi compost for organic manure, Fish tonic**, an organic way for pest control. We have also promoted **Azola pit** to add nutrient value in cattle feed.

- As an ongoing activity we are also repairing the existing Hand Pumps in the 11 villages and creating water user groups. For this we have trained twenty persons (**20**) from the village itself, as a result generating employment for them also. These mechanics have been provided certificates and when demand comes the Mukhiya's also call them and provide assignments.
- **We (Usha Martin) have repaired thirty three (31) hand pump** for better access to **safe** drinking water. In which 773 beneficiaries got benefited.
- **SRII (Systematic Rice Intensification) plantation** has been the major Achievement in UML- CSR Area. We had done Wheat cultivation, in 2022-23 and we provided seeds to **28** New SWI farmers.
- **We have Linked Household cum farmers with multi cropping scheme** and supported

farmers through awareness, techniques and close monitoring of the whole process. We have also incorporated the Govt. Scheme in the villages. And we are promoting Cash crops like Strawberry, Sweet Corn and Watermelon & Muskmelon.

- SHG / Kisan Groups have been provided the paddy Treasures as well as weeding machine for making paddy cultivation and weeding easy.

- Motivation to the beneficiaries and coordination with govt. officials has augmented the number of crops insurance in the villages. **Training conducted to aware for soil test.**

- Irrigation has been a serious problem for farmers and due to this reason; they were reluctant to do cultivation in summer season. Thus, Usha

Martin has initiated the construction of 59 new Low lands well in the periphery of factory, which we aim to cover additional 120 Acres of land for Rabi / Paddy crop cultivation.

- Ten (10) Jal miner are being Repaired in the Mahilong, Tati, Masu, Ulatu and Haratu village for more than 200 households.
- 30 Solar lights were installed in 11 villages, which benefited about 750 people.
- Crop Insurance is required for rainy day thus, we encouraged farmers for crop insurance to have compensation if any adversity happen to crop.

Usha martin Foundation distributed:

- Strawberry plants-----12 Nos
- Vegetable Seeds-----477 Nos
- Grafted Plants-----17 Nos

Health and Sanitation

Health Camps are mobile and are conducted in different locations by qualified doctors, nurses, and paramedics and community health workers. Total 3379 persons were examined in total 80 health Camp which were conducted in 18 villages of CSR operational area.

School health Session were held in the village to **promote healthy behaviors among the children that they will inculcate for life**. To detect and treat diseases early in children and adolescents including identification of malnourished and anemic children with appropriate referrals to PHCs and hospitals.

To promote use of safe drinking water in school. Total 05 health session were held in school, where more than 399 children were benefitted.

Thirty Six (36) Adolescent girl's group meeting has been conducted in 10 villages and make them aware about personal hygiene, communicable diseases, Anemia etc. **Hemoglobin Test** of adolescent girls has been done in villages to check the level and to make

them aware about the curative measures.

- **Home Visit** has regularly being done for awareness about Anti Natal Checkup, Post Natal Checkup, Immunization etc. with the ladies who were present in Health due list of Sahiya. And we have supported immunization program through logistic as well as technically.
- We have organized AIDS / TB awareness among villagers. This gives an opportunity for public and private partners to spread awareness about the status of the pandemic and encourage progress in HIV/AIDS prevention, treatment and care around the world.
- We distributed supplementary food to 20 TB patients in every month.
- Promotion Ayurveda Session and 410 reached
- Yoga & Environment conservation was promoted among 900 children in 11 school
- Mobile Medical unit was provide to shalini for Camps

Training and Capacity Building Activities:

- In the villages **Thirty two (32) Gram Sabha** were attended and given proper suggestion **for effective meeting and thereafter activities. Farmers were made aware about the organic way of farming.** We have made farmers aware about NADEP compost, Compost Pit, Low Cost Vermi Compost, Fish Tonic, PANCHGAVYA, Inter Cropping, Mix Cropping, Relay Cropping etc.
- **Village level meetings of VHC, VEC, and SHG** were regularly organized in **18 villages. Regular Quality circle meeting** are being held in all villages on problems like Water Logging, Alcoholism, Sanitation, Unsafe drinking water, Income generation alternatives, Illiteracy, Open defecation etc. The QCs are also been audited by Experts of Usha Martin Ltd.
- Since our stakeholders depends upon agriculture for their livelihood and income generation. Thus our focus were to train themselves about modern/ scientific way of harvesting. We have coordinated with Birsa Agriculture University (BAU) and Ramakrishna Mission for imparting new idea and technology so far agriculture area is concerned.

- **Few capacity building Activities**

- Mushroom Cultivation Training -----161 Villagers
- Tailoring Training-----20 Villagers
- Plumber Training -----10 Villagers
- Talley Training-----30 Villagers
- Beautician Training-----20 Villagers
- Home Appliance Repairing Training-----20 Villagers
- Solar Panel Technician Training-----10 Villagers

Educational Activities:

•Ekal Vidyalaya is a Movement involved in integrated & holistic development of rural & tribal Community. The main activity undertaken in this movement is to run one-teacher schools (known as Ekal Vidyalayas) all over rural area, in the remotest rural & tribal villages to take the education to every child. Under CSR, We have

- taken 10 Vidyalaya for the value and morale education in the periphery village of Usha Martin.
- Communities that participate in sport and recreation develop strong social bonds, are safer places and the people who live in them are generally healthier and happier than places where physical activity isn't a priority. Sport and recreation builds stronger, healthier, happier and safer communities. Foundation has been supportive in the promotion of game and sport in the village and especially to schools

- Infrastructure in schools enables trade, powers businesses, connects workers to their jobs,
- Creates opportunities for struggling communities and protects the nation from an increasingly unpredictable natural environment. We are developing the infrastructure in Masu and Ulatu villages.

- Usha Martin Foundation run one Gurukul School. This is totally dedicated to rural and especially to poor villagers.

Livelihood Generation Activities:

One of the prime objectives of CSR's activity is to improve the capacity building of the communities. Through livelihood generation. Thus we have initiated the SRI (Systematic Rice Intensification) method of cultivation among the farmers community. Now the target is to encourage them to adopt a second Crop, and exploring various off-farm income avenues like mushroom, duck, Grafted Plant and fishery

Few activities based of livelihood Generation:

- **161 Nos of plants prepared for mushroom cultivation.**
- **Kitchen Garden with 477 Nos for nutritious vegetable / fruits.**
- **10 People were given training for the work of Plumber, through which they are earning good income**
- **20 Girls have been given training to work as beauticians, through which they are enhancing their skills.**
- **Drip was installed in 35 farmers' fields for less water farming**

- **Establishment of polynet nursery-----13 Nos**
- **Jal Miners with Solar Energy -----10 Nos.**
- **Social Forestry were promoted amongst villagers.**
- **Seeds of cash crops like muskmelon, strawberry and mushroom were distributed.**

Women Empowerment:

- As Govt. has started the drive for Laxmi ladli Yojana, Atal Pension Yojana, PMBSY, PMJJY we have conducted several rounds of meeting in villages to motivate farmers for towards opening their account in these schemes so to make them financially strong. These are :
- Village meeting -----32 Nos.
- SHG meeting-----10 Nos.
- Jeevamrit (Organic Compost) Making Training-----61 Farmers.
- Village Progressive Farmer Meeting -----85 Farmers.
- We have also participated in SHG meeting and briefed about our TVM model and also livelihood enhancement program like mushroom cultivation, poultry, piggery, fishery, duckery etc. Before implementation of our activities we discuss in SHG meeting to do need analysis and also to check acceptance level of our activities which are going to implement. We also discuss about the govt. schemes running currently and also about the new schemes which govt. launches for their betterment.

Some Govt. Scheme, which linked/Coordinated with CSR Villagers/ Communities

-

- Mung Dal Distribution-----28 Nos
- Chana Distribution -----30 Nos
- Madhuwa Seeds Distribution-----10 Nos
- Mustard, Masur Seeds Distribution-----61 Nos
- Spray Machine Distribution-----04 Nos
- Duckry Distribution-----24 Nos
- Cow Farming Training-----22 Nos
- Fish Farming Training-----4 No

अनगड़ा : बीस युवतियों को मिला ब्यूटीशियन का प्रशिक्षण

खबर मन्त्र संवाददाता

अनगड़ा। गांवों के युवाओं में भरपूर कौशल और काबिलियत है। इसको सही तरीके से पहचान कर प्रशिक्षण दिया गया, तो वे युवा पूंजी बन जायेंगे। उक्त बातें वाईबीएन के चेयरमैन रामजी यादव ने कहीं। वे आज उषा मार्टिन एवं मिनी टूल रूम के संयुक्त तत्वावधान में आयोजित ब्यूटीशियन कोर्स के प्रशिक्षण पश्चात युवतियों के बीच प्रमाण पत्र वितरण कार्यक्रम में मुख्य अतिथि के तौर पर विचार

व्यक्त कर रहे थे। उन्होंने कहा ज्ञान के साथ कौशल विकास भी जरूरी है। इसे प्रयोग में लाकर गांव की गरीबी को खत्म किया जा सकता है। कंपनी के पर्यावरण प्रमुख अरुण दत्ता ने कहा कि अच्छा से प्रशिक्षण प्राप्त करने के बाद ही रोजगार का राह आसान होगा। फॉउंडेशन के हेड डॉ मयंक मुरारी ने कहा कि समग्र विकास की अवधारणा को विभिन्न आयामों के माध्यम से गांवों में धरातल पर उतारा जा रहा है। अभी तक 150 से अधिक ग्रामीणों को सिलाई

कढ़ाई कप-प्लेट निर्माण प्लंबर मोटरसाइकिल सर्विसिंग से जोड़ा जा चुका है। अभी कंपनी के माध्यम से ब्यूटीशियन का कोर्स चलाया जा रहा है। प्राचार्य एमके गुप्ता ने कहा कि उषा मार्टिन के सौजन्य से ऐसे प्रशिक्षण के

कार्यक्रम से गांवों के युवाओं को आगे आने का अवसर मिलेगा। मंच संचालन मंगल टोप्यो एवं धन्यवाद ज्ञापन आशुतोष मिश्रा ने किया। मौक पर देवाशीष घोष, वरुण कुमार, राहुल उरांव, रौशन लिंडा आदि उपस्थित थे।

स्वावलंबी गांव के लिए उषा मार्टिन की पहल, ब्यूटीशियन व फैशन डिजाइनिंग कोर्स शुरू महिलाओं के आत्मनिर्भर बनने से परिवार में खुशहाली आती है : तनमय सिन्हा

GANDIV REPORTER

संची। महिलाओं के आत्मनिर्भर बनने से परिवार में आय वृद्धि और खुशहाली आती है। इसके साथ ही गांव भी स्वावलंबी बनता है। स्वावलंबी गांव के लिए हुनर का ज्ञान और उसका विकास जरूरी है। इसके लिए गांव के युवावर्ग को प्रशिक्षण के विभिन्न विकल्पों को अपनाने की जरूरत है। उक्त बातें उषा मार्टिन के पावर प्लॉट के हेड तनमय सिन्हा ने कहीं। वह आज मिनी टूल रूम (झारखंड सरकार) में आयोजित कार्यक्रम में बोल रहे थे। उषा मार्टिन फॉउंडेशन गांवों में युवाओं को आत्मनिर्भर बनाने के लिए विशेष अभियान चला रही है। इस अभियान के तहत गांवों की 30 महिलाओं को टेलरिंग और फैशन डिजाइनिंग का प्रशिक्षण दिया गया है। सुदूर गांव के 10 युवाओं को मोटर साइकिल रिपेयरिंग का प्रशिक्षण दिया गया है। इन लोगों को प्रमाण पत्र प्रदान

हुनर के लिए सीखना जरूरी

किया गया। इसके बाद गांवों की 20 युवतियों को ब्यूटीशियन व फैशन डिजाइनिंग में तीन माह का कोर्स शुरू कराया गया है।

तीन माह तक चलने वाले इस कोर्स में प्रयोगिक एवं सैद्धांतिक ज्ञान प्रदान किया जायेगा। इस अवसर पर सचिंद्र कुमार, कोर्स कोऑर्डिनेटर राहुल उरांव ने भी विचार व्यक्त किये। मंच संचालन मंगल टोप्यो एवं धन्यवाद ज्ञापन आशुतोष मिश्रा ने किया। इस अवसर पर वरुण कुमार, देवाशीष घोष मोनीत बूतकुमार, रौशन लिंडा आदि उपस्थित थे।

एसपीडी के महाप्रबंधक आरके जायसवाल ने कहा कि सीखने के साथ-साथ उसमें गतिशीलता और निरंतरता बनाये रखना चाहिए। हुनर को निखारने के लिए लगातार सीखना जरूरी है। इससे ही सफलता आयेगी। इस अवसर पर डॉ मयंक मुरारी ने कहा कि गांव में युवाओं को सहयोगात्मक रवैया रखना होगा। एक दूसरे को सहयोग कर ही हम व्यावसायिक रूप से सफल हो सकेंगे। इसके लिए समूह में कार्य करने की जरूरत है। गांव के समग्र विकास के लिए किसानों, विद्यार्थी और महिलाओं को केंद्र में रखकर ग्रामीण विकास की गतिविधियां चलाई जा रही है।

गांवों के युवाओं को आगे आने का अवसर मिलेगा

प्राचार्य एमके गुप्ता ने कहा कि उषा मार्टिन के सौजन्य से ऐसे प्रशिक्षण के कार्यक्रम से गांवों के युवाओं को आगे आने का अवसर मिलेगा। इस कोर्स को करने के बाद न केवल महिलाएं हुनरमंद बनेगी, बल्कि आय संवर्द्धन कर आत्मनिर्भर भी बनेगी। कोर्स के दौरान महिलाओं को झारखंड के विभिन्न संस्थानों के साथ जुड़ने के अवसर को भी तलाशा जायेगा। ताकि स्वरोजगार के साथ नियोजन का विकल्प प्राप्त हो सके।

गांवों के विकास में शिक्षा की केन्द्रीय भूमिका : प्रिया बागची

प्रत्यूष जबबिहार संवाददाता

रांची : गांवों के विकास में शिक्षा की केन्द्रीय भूमिका होती है। शिक्षा से लोगों को ज्ञान होता है और ज्ञान से विकास के नये आयाम खुलते हैं। उक्त बातें उषा मार्टिन सीएसआर की मैनेजर प्रिया बागची ने बानपुर विद्यालय में आयोजित कार्यक्रम में कहीं। छात्रों में खेलकूद एवं पढ़ाई में विशेष रुचि उत्पन्न करने के लिए सीएसआर की ओर से किताबों का एक सेट, फुटबॉल, बॉलीबॉल, कैरमबोर्ड एवं अन्य खेल सामग्री दी गयी।

प्रिया बागची ने कहा कि विद्यालय में एक सकारात्मक वातावरण है। इस माहौल को बच्चों के सर्वांगीण विकास के लिए उपयोग किया जाना

चाहिए। विद्यालय के शिक्षक जिस विपरीत परिस्थिति में कड़ी मेहनत एवं लगन के साथ अध्यापन कार्य कर रहे हैं, वह काबिलेतापी है। इस अवसर पर प्राचार्य आनंद कुमार

साहु ने कहा कि बानपुर विद्यालय में 500 से अधिक विद्यार्थी हैं, लेकिन उनके लिए समुचित भवन, बच्चों को बैठने के लिए बेंच, टेबुल एवं किताबों की समस्या है। इसके

बावजूद गांव वालों के साहस एवं सकारात्मक विचार के कारण ही बानपुर विद्यालय लगातार शिक्षा एवं खेलकूद में बेहतर करता जा रहा है। इसको विद्यालय समिति के अध्यक्ष

जगन लिंगा ने कहा कि सुदूर वनप्रदेश में स्थित यह विद्यालय ग्रामीण एवं उषा मार्टिन के सहयोग से बेहतर कर रहा है। इसके विकास में सभी सहभागी बने, ताकि बच्चे और बेहतर कर सकें। सीएसआर हेड मयंक मुरारी ने स्कूल को भविष्य में हर संभव सहयोग का भरपूर दिवा। इस अवसर पर शिक्षिका नम्रता प्रकाश, शिक्षक कुंज बिहारी महतो, कुंदन कुमार, विवेक कुमार, किरण कुमारी, इपिल स्मिता तिट्टू, गंगाधर मुंडा, नवीन कुमार, अनामिका झा, सरिका टोप्पो, पुरन चंद्र रजक, गुंजन उरांव, राधा कुमार, मनोज लिंगा, भुवनेश्वर महतो आदि के अलावा सैकड़ों की संख्या में छात्र और छात्राएं उपस्थित थीं।

टीबी उन्मूलन में जन सहभागिता जरूरी, सबको आगे आना होगा

उषा मार्टिन के सहयोग से मरीजों के बीच पोषण किट का वितरण किया गया।

लाइफ रिपोर्टर @ रांची

टीबी उन्मूलन में जनसहभागिता जरूरी है। इसके लिए समाज के सभी वर्गों के लोगों और संस्थाओं को आगे आकर सहयोग करना होगा। ये बातें रांची जिला यक्ष्मा पदाधिकारी डॉ एस बासकी ने कहीं। वे शुक्रवार को उषा मार्टिन के सहयोग से टीबी मरीजों के लिए पोषण किट वितरण कार्यक्रम में बोल रहे थे। उषा मार्टिन कंपनी के सहयोग से कारखाने के इंट-निर्द के गांवों में इलाज के टीबी के 20 मरीजों के बीच पोषण किट का वितरण किया गया। मौके पर डॉ नीलिमा माइकल

ने कहा कि टीबी उन्मूलन में दवाई के साथ पोषण जरूरी है। डॉ मयंक मुरारी ने कहा कि उषा मार्टिन अपने सीएसआर कार्यक्रम के तहत सरकारी के लोक कल्याण के कार्य को सहयोग करती रहेगी। गांवों में कुपोषण के लिए भी शालिनी अस्पताल के माध्यम से कार्यक्रम चलाया जा रहा है। आयोजन में धिविक प्रभाकर, राकेश राव, सुराति तिकी, अमित कुमार, अजना व खगेश्वर ने सहयोग किया। वहीं राणा विकास, वरुण कुमार, भुवनेश्वर महतो, मोनीत बूतकुमार, रीशन लिंगा, सविता कुमारी आदि उपस्थित थे।

ऊषा मार्टिन फाउंडेशन ने आयुर्वेदिक चिकित्सा और नेत्र जांच शिविर का किया आयोजन

संवाददाता
अनगड़ा। शालिनी अस्पताल नरायण सोसा व ऊषा मार्टिन फाउंडेशन के तत्वाधान में गुरुवार को हेसल गांव में आयुर्वेदिक चिकित्सा शिविर सह नेत्र जांच शिविर का आयोजन किया गया। जिसमें डॉक्टर वैद्य अमीता जैन ने लगभग 80 मरीजों का इलाज कर दवा वितरण किया गया। 25 ग्रामीणों को आंख का चरमा वितरित किया गया और 15 मरीजों का मोनोविन्द चिन्हित किया गया, जिसका शालिनी अस्पताल की ओर से निःशुल्क ऑपरेशन किया जायेगा। इस अवसर पर पत्रकार नवीन कुमार मिश्रा ने कहा कि आयुर्वेद के माध्यम से भारतीय चिकित्सा पद्धति को बढ़ावा दिया जा रहा है। लोगों में जागरूकता एवं जीवन शैली में बदलाव के माध्यम से

निरोग रहने का जो प्रयास किया जा रहा है। उसका लाभ ग्रामीणों को लेना चाहिए। वैद्य अमीता जैन ने मरीजों को आयुर्वेदिक चिकित्सा पद्धति के बारे में बताया, जरूरतमंद लोगों के बीच आयुर्वेदिक दवा का वितरण किया गया एवं चिकित्सा परामर्श दी गई। शालिनी अस्पताल के प्रबन्धक राणा विकास ने बताया कि ये कार्यक्रम उषा मार्टिन फाउंडेशन के सौजन्य से चलाया जा रहा है, अस्पताल द्वारा टाटी सिलवे,

अनगड़ा नामक क्षेत्र में स्वास्थ्य जांच शिविर एनीमिया मुक्त अभियान आयुर्वेदिक चिकित्सा कार्यक्रम चलाया जा रहा है जिसका ग्रामीण लाभ उठा रहे हैं। शालिनी अस्पताल की ओर से आयोजित ये कार्यक्रम उषा मार्टिन फाउंडेशन के सहयोग से आगे भी अन्य गांवों में जारी रहेगा, आयुर्वेदिक, एलोपैथिक के अलावा होम्योपैथिक चिकित्सा शिविर का भी आयोजन किया जाएगा।

कार्यक्रम : उषा मार्टिन के ग्रामीण प्रशिक्षण कार्यक्रम में आइआइएम के निदेशक ने कहा

जीवन में आगे बढ़ने के लिए सोचने का नजरिया बदलें

संतुलित अर्थव्यवस्था के लिए लघु उद्यम आवश्यक
फॉउंडेशन से 150 से अधिक ग्रामीणों को दिया गया प्रशिक्षण

आजाद सिपाही संवाददाता

अनगढ़। जीवन में आगे बढ़ने के लिए सोचने का नजरिया बदलें। छोटे-छोटे विचार में बहुत ताकत होती है। इन छोटे विचार को उद्यम में बदलकर संतुलित अर्थव्यवस्था का निर्माण किया जा सकता है। उक्त बातें आइआइएम के निदेशक दीपक कुमार श्रीवास्तव ने कही। वे गुरुवार को उषा मार्टिन एवं मिनी टूल रूम के संयुक्त तत्वावधान में आयोजित टैली कोर्स के सर्टिफिकेट वितरण कार्यक्रम में बतौर मुख्य अतिथि के बोल रहे थे। उन्होंने कहा कि ज्ञान के साथ कोशल विकास जरूरी है। इसे तेजी से प्रयोग में लाकर ही सफल उद्यम की स्थापना संभव होगा। हमें यह सोचने की जरूरत है कि कैसे कोशल प्रबंधन के साथ बेहतर तरीके से संस्था की उत्पादकता को बढ़ाया जाए। विचार के युग में हमें

प्रयोगधर्मी होना होगा। असफलता से डरने की जरूरत नहीं है, बल्कि उससे सीखने एवं सफलता के लिए उसके सीख को उपयोग करने की जरूरत है।

उषा मार्टिन के एचआर हेड एनएन झा ने कहा कि ग्रामीण युवाओं के लिए टैली कोर्स आत्मनिर्भरता की दिशा में एक अच्छी शुरुआत है। इसके साथ बेहतर संवाद की शैली एवं नवीनवी जानकारी के माध्यम से स्वावलंबन की दिशा में आगे बढ़ने में कंपनी सहयोग करेगी। इस अवसर पर आइआइएम के सहायक प्रोफेसर रोहित कुमार ने कहा कि उद्यमशीलता के लिए

हार्ड एवं सॉफ्ट स्किल को शामिल करने की जरूरत है। उषा मार्टिन के सहयोग से हार्ड स्किल का प्रशिक्षण आगे बढ़ने में एक आधार का काम करेगा। इसके साथ नॉलेज एवं विद्वेधिवर को भी बेहतर करने की जरूरत है ताकि रोजगार के नये-नये अवसर का लाभ लिया जा सके।

फॉउंडेशन के हेड डॉ मयंक मुरारी ने कहा कि समय विकास की अवधारणा को विभिन्न आयामों के माध्यम से गांवों में घरातल पर उतारा जा रहा है। अभी तक 150 से अधिक ग्रामीणों को सिलाई, कढ़ाई, कप-प्लेट निर्माण, प्लंबर, मोटरसाईकिल

सर्विसिंग एवं अन्य स्वरोजगार के माध्यम से जोड़ा जा चुका है। अभी कंपनी के माध्यम से व्युटिलिशन का कोर्स चलाया जा रहा है। प्राचार्य एमके गुप्ता ने कहा कि उषा मार्टिन के सीजन से ऐसे प्रशिक्षण कार्यक्रम से गांवों के युवाओं को आगे आने का अवसर मिलेगा। इस कोर्स को करने के बाद न केवल युवा हुनरमंद बनेंगे, बल्कि आयु संवर्द्धन कर आत्मनिर्भर भी होंगे। मंच संचालन मंगल टोप्पो एवं धन्यवाद ज्ञापन आशुतोष मिश्रा ने किया। इस अवसर पर देवाशीष घोष, वरुण कुमार, राहुल उरांव, रोशन लिंडा आदि उपस्थित थे।

स्वस्थ ग्रामीण से स्वस्थ गांव की पहल : उषा मार्टिन ने तीन हजार से अधिक लोगों को दी स्वास्थ्य सेवाएं

- ◆ **बारू हजार जनजातीय लोगों तक पहुंचा स्वास्थ्य सेवा**
- ◆ **150 नवीन का मोडिग्राहिक ऑपरेशन व रजिस्ट्रार वितरित**
- ◆ **टीबी एवं एड के मरीजों को भी उपचार दिला गया**
- ◆ **शालिनी अस्पताल को एक मोबाइल मेडिकल यूनिट मिला**

दिसा उपखण्ड
रांची। उषा मार्टिन फॉउंडेशन के माध्यम से टाटीसिलवे स्थित कारखाना के इर्द गिर्द के 18 गांवों में इस वित्तीय वर्ष में स्वास्थ्य ग्रामीण से स्वस्थ गांवों की पहल चलाई गयी। शालिनी अस्पताल के सहयोग से पिछले साल में 3379 ग्रामीणों को स्वास्थ्य जांच एवं उनकी समस्याओं का समाधान किया गया, ताकि वे निरोग रह सकें। यह जानकारी उषा मार्टिन फॉउंडेशन के हेड डॉ मयंक मुरारी ने दी। उन्होंने बताया कि इन लघुफुफ में द्वाइ हजार से अधिक जनजातीय

समाज के लोगों को चलते मेडिकल यूनिट के माध्यम से स्वास्थ्य सेवा प्रदान की गयी, ताकि उनको गांव एवं सुदूर जनप्रदेश में ही बेहतर स्वास्थ्य सेवा प्राप्त हो सके। पिछले साल दो हजार लोगों का इलाज कराया गया था। उषा मार्टिन फॉउंडेशन गांवों में अपनी पहुंच को बढ़ाने के लिए शालिनी अस्पताल को एक मोबाइल मेडिकल यूनिट दिया ताकि कम समय पर सुदूर जनप्रदेश के गांवों में पहुंचा जा सके। इस वर्ष गांवों में गरीब ग्रामीणों के आंखों के लिए सालोभर अभियान चलाया

गया। इसमें से चयनित 150 लोगों को निःशुल्क मोतियाबिंद का ऑपरेशन कराया गया तथा उनको चरमा भी प्रदान किया गया। स्वास्थ्य अभियान के तहत चिन्हित गांवों मासू और महिलों गांवों के चयन का उद्देश्य किशोर में एनीमिया के खिलाफ अभियान चलाया है। इस अभियान का भी सार्थक परिणाम निकला है। उषा मार्टिन कंपनी के सहयोग से कारखाने के इर्द गिर्द के गांवों में इलाजत टीबी के 20 मरीजों के बीच पोषण फिट का वितरण किया गया। कंपनी द्वारा पिछले साल समीपवर्ती गांव के 15

स्वस्थ जीवन के लिए जीवनशैली में सुधार का अभियान: प्रिया बागची

स्वस्थ जीवन के लिए गांव के लोगों के जीवन शैली में सुधार के लिए वैकल्पिक स्वास्थ्य सेवाओं को बढ़ावा दिया गया। आयुर्वेद के माध्यम से भारतीय चिकित्सा पद्धति को गांवों तक पहुंचा गया। उषा मार्टिन की प्रबंधक प्रिया बागची ने बताया कि गांवों में आयुर्वेदिक, एलोपैथिक के अलावा होम्योपैथिक चिकित्सा शिपिर का भी आयोजन किया गया। इसके अलावा इस साल वॉर के 11 सेशन में 900 ग्रामीणों को योग, ज्ञान्याम एवं आसन के माध्यम से बेहतर स्वास्थ्य का प्रशिक्षण गांव के स्कूल एवं पंचायत भवन में कराया गया। इसी प्रकार आयुर्वेद के नौ सेशन से 450 से अधिक लोगों को भारतीय चिकित्सा पद्धति से जोड़ा गया।

मरीजों को पोषण उपलब्ध कराया गया था। फॉउंडेशन के हेड डॉ मयंक मुरारी ने बताया कि बेहतर स्वास्थ्य के लिए गांव स्तर पर शुद्ध पेयजल की सुविधा के लिए पंचायत स्तर पर चापाफल का मरम्मत कराया गया। इस साल 31 चापाफल एवं दस जलमीनार का मरम्मत कराकर गांव

इनको सौर ऊर्जा से संचालित कराया गया, ताकि इसे न्याय टिकाऊ बनाया जा सके। इससे 500 घरों को शुद्ध पेयजल की सुविधा कारायी जा सके। उलातू में स्नान घर का निर्माण कराया गया। इसके अलावा सालभर में गांव स्तर पर स्वास्थ्य जागरूकता का अभियान चलाया गया।

उषा मार्टिन फाउंडेशन का शिविर में मरीजों का इलाज प्रकृति के संग ही आरोग्य है : वैध अमिता

पंच संवाददाता
अनगड़ा। शालिनी अस्पताल एवं उषा मार्टिन फाउंडेशन के तत्वावधान में मासु गांव में आयुर्वेदिक चिकित्सा शिविर का आयोजन किया गया। जिसमें डॉक्टर वैध अमिता जैन ने लगभग 85 मरीजों का इलाज किया एवं सभी को आयुर्वेदिक चिकित्सा पद्धति के बारे में बताया। उन्होंने कहा कि प्रकृति के संजय चलने में ही आरोग्य है। हम बीमार तब होते हैं, जब प्रकृति के विपरीत काम करते हैं। शालिनी अस्पताल के प्रबंधक राणा विकास ने बताया कि ये कार्यक्रम दर्द निवारक दवा मुक्त

अभियान के तहत चलाया जा रहा है। उषा मार्टिन फाउंडेशन के सहयोग से ये कार्यक्रम आगे भी अन्य गाँव में जारी रहेगा। मौके पर उषा मार्टिन फाउंडेशन के सचिव डॉ मयंक मुरारी, वरुण कुमार, मोनित भुटकुमार, सबिता

कुमारी। शालिनी अस्पताल के शिशिर कुमार भगत, दिलीप मुंडा, मोहर महतो, संपूर्णानंद महतो और ग्रामीण में गाँव के ग्राम प्रधान देवराज पहान बैजनाथ महतो, आंगनबाड़ी सहाय्या और सहायिका उपस्थित थे।

उषा मार्टिन फाउंडेशन से मिली चार सौ परिवारों को शुद्ध पेयजल की सुविधा

- दस सोलर जलमीनार एवं 26 चापानल की हुई मरम्मत
 - शुद्ध पेयजल के साथ जल संरक्षण पर जोर : प्रिया बागची
- राष्ट्रीय सागर संवाददाता

रांची : उषा मार्टिन फाउंडेशन की ओर से ग्रामीण क्षेत्रों में शुद्ध पेयजल के लिए विशेष अभियान चलाया गया है। इसके तहत टाटीसिलवे स्थित कारखाने के समीपवर्ती 18 गांवों के बंद पड़े चापकलों एवं जल मिनारों की मरम्मत कर ठीक कराया गया है। इसके अलावा इन जलमीनारों को सोलर लाइट से चलाने की व्यवस्था की गयी है। कई गांवों में इन जलमीनार के पास स्नान घर का भी निर्माण कराया गया है। राजधानी में बढ़ती गर्मी को देखते हुए इस अभियान से ग्रामीण लोगों में खुशी का माहौल है। उषा मार्टिन फाउंडेशन के सचिव डॉ मयंक मुरारी ने बताया कि हरेक गांव के जनप्रतिनिधियों के माध्यम से आर्थिकता के आधार पर जल मिनारों का मरम्मत कराया गया। लोगों को शुद्ध पेयजल की सुविधा

में दिक्कत नहीं हो, इसके लिए कई जगहों पर सोलर लाइट भी लगाया गया है। फाउंडेशन की ओर से मासु, उलातु, टाटी पूर्वी एवं टाटी पश्चिम, महिलौंग, होरहाप, हरातु, सिलवे की तहत टंकी बदलने के अलावा, सोलर पैनल एवं प्लंबिंग सिस्टम को नया लगाया गया है ताकि गर्मी के दिनों में पानी की दिक्कत नहीं हो सके। इस सुविधा के कारण विभिन्न गांवों में चार सौ परिवार को शुद्ध पानी की सुविधा प्राप्त हो सकेगा। कई जगहों पर स्नान घर का भी निर्माण कराया गया है।

सीएसआर प्रबंधक प्रिया बागची ने बताया कि इस पूरे अभियान में शुद्ध पेयजल के साथ जल संरक्षण पर भी जोर दिया गया है। लोगों को पानी के महत्व और विशेषकर गर्मी में जल संकट के दौरान उसके उपयोग के बारे में भी लोगों को बताया है। इसके लिए जल सहाय्या एवं जनप्रतिनिधियों को जागरूक करने का अभियान चलाया जाता है। हरातु की मुखिया नूतन पाहन ने कहा है कि उषा मार्टिन के तहत पेयजल सुविधा के लिए किया गया कार्य काफी सराहनीय है। इससे लोगों

में कंपनी के प्रति विश्वास बढ़ा है। वहीं टाटी के शैलेश कुमार मिश्रा ने कहा कि यह कंपनी के द्वारा हरेक साल कार्य किया जाता है। ग्रामीण विकास कार्यक्रम के तहत मासु, उलातु, टाटी पूर्वी एवं टाटी पश्चिम, महिलौंग, होरहाप, हरातु, सिलवे में जल मिनार का मरम्मत कराया गया है। इसके अलावा मासु, उलातु, टाटी पूर्वी एवं टाटी पश्चिम, महिलौंग, होरहाप, हरातु, सिलवे, जानुम, हेसल, बहेया, लुपुंग, अनगड़ा इलाकों में चापकल मरम्मत कराया गया है।

उषा मार्टिन फाउंडेशन की पहल से सौर ऊर्जा से रोशन हो रहे दर्जनभर गांव

लाइफ रिपोर्टर @ रांची

उषा मार्टिन फाउंडेशन के माध्यम से टाटीसिलवे के इर्द-गिर्द के दर्जनभर गांव सौर ऊर्जा की रोशनी से रात को जगमगा रहे हैं. कारखाने के इर्द-गिर्द के गांवों में 45 जगहों पर ऐसे सोलर पैनल पिछले दो वर्षों में स्थापित किये गये हैं. इसे किसानों के खेत में, स्वास्थ्य केंद्र पर और गांवों की गलियों में सौर ऊर्जा से संचालित सोलर लाइट लगायी गयी है. इससे किसानों की उत्पादकता बढ़ी है. स्वास्थ्य केंद्र में रात को इलाज संभव हुआ है और इससे दुर्घटना में कमी आयी है. उषा मार्टिन फाउंडेशन (यूएमएफ) की पहल का उद्देश्य समुदाय की व्यावहारिक जरूरतों को पूरा करने के साथ-साथ पर्यावरण-अनुकूल और नवीकरणीय ऊर्जा स्रोतों के उपयोग को प्रोत्साहित करना है.

यूएमएफ ने नामकुम और अनगड़ा ब्लॉक के महिलौंग, उलातु, मासु, चतरा, हरातु, जानुम, ताती पूर्व, ताती पश्चिम, हेसेल, बेदवारी, पटौल, बानपुर, मसरिजारा, सासन बेरा, सिलवई, होरहाप जैसे विभिन्न गांवों में सफलतापूर्वक सोलर लाइट शुरू की है. कुल मिलाकर यूएमएफ ने गांव में 45 सौर लाइट स्थापित की

सोलर लाइट से जगमगा रही हैं गांव की गलियां.

हैं, जिनमें वे लाइट भी शामिल हैं जो पहले केरोसिन लैंप और बिजली बल्ब जैसे महंगे और खतरनाक प्रकाश विकल्पों पर निर्भर थीं. सोलर लाइट के कार्यान्वयन से न केवल ग्रामीणों को बेहतर रोशनी मिली है, बल्कि अंधेरे के बाद सुरक्षा की भावना भी आयी है. मासु के प्रेमनाथ महतो बताते हैं : सोलर लाइट लगने से खेत में रात को जानवर नहीं घुस पाते हैं. वही महिलौंग के मुखिया श्री तिकी कहते

» 45 जगहों पर सौर लाइट लगायी गयी है

» स्वास्थ्य केंद्र में रात को इलाज संभव हुआ है

हैं : होरहाप सेंटर पर अब रात को भी गांववासियों का इलाज हो रहा है.

ग्रामीणों का सकारात्मक स्वागत इस बात को रेखांकित करता है कि इस पहल का उनके दैनिक जीवन पर कितना महत्वपूर्ण प्रभाव पड़ा है. इसके अतिरिक्त, सौर ऊर्जा की कम चल रही लागत ने कई परिवारों के लिए वित्तीय बोझ से राहत दी है, जिससे उन्हें मासिक बिलों की चिंता किये बिना विश्वसनीय रोशनी का आनंद लेने की सुविधा मिली है. इसके अलावा सोलर लाइट ने गांव की फसलों को रात के कीटों से बचाने में महत्वपूर्ण भूमिका निभायी है, जिससे किसानों की आजीविका की रक्षा हुई है और समुदाय की समग्र समृद्धि में योगदान मिला है. कुल मिलाकर, सोलर लाइट स्थापना की पहल केवल सड़कों को रोशन करने से कहीं आगे जाती है. यह समुदायों को सशक्त बनाने, स्थिरता को बढ़ावा देने और भावी पीढ़ियों के लिए एक उज्वल भविष्य बनाने के बारे में है.

Thank You

REPORT ON SOCIAL AUDIT FOR THE PERIOD OF 2022-23

OF

USHA MARTIN LTD CSR INITIATIVES

Report Submitted to

Report Prepared by

.....
Citizens Foundation, 7Betar Kendra, Niwaranpur, Ranchi, Jharkhand 834002

Website: www.citizensfoundation.org, Email: mail@citizensfoundation.org

Ph. No: 0651-2481777/2482777

ACKNOWLEDGEMENT

We are grateful to USHA MARTIN LTD management for giving us the opportunity to work on this report. First of all, we are thankful to Dr. Mayank Murari, Senior DGM CSR and PR and other personnel of UML for providing us the opportunity of conducting the social audit for the period of 2020-21. We express our sincere gratitude to the field and supporting staffs of UML who helped us to understand the implementation process and provided relevant data related to the different initiatives. We would like to express our deep gratitude to Gram Panchayat Mukhiya, and all those who have directly or indirectly helped us in this audit process. Without their support and cooperation at the field this task could not have been achieved successfully.

We would like to thank Mr. Ganesh Reddy, CEO, Citizens Foundation for his immense support. We are also thankful to all support staffs of Citizens Foundation for their kind support in crucial time. We would also extend warm thanks to Mr. Hemant Tirkey, Director-Partnership and Mr. Shyamal Herenz-Director NRML, CF who contributed magnanimously to this social audit with their comments and insights. Nevertheless, we would like to express our sincere thanks towards researchers who devoted their time and knowledge in this social audit.

CHAPTER 1: INTRODUCTION

Usha Martin Ltd hereinafter referred as “Usha Martin” commenced business in 1962, the Founder’s vision was to be a global company and a world leader in manufacturing wire ropes. Amongst many challenges that lay in the pathway of achieving that vision, was awareness that it would not succeed as a global company and world leader by just being an island of prosperity in a sea of poverty and discontent outside its factory gates in Jharkhand. For several years the Founders of Usha Martin searched for answers to achieve inclusive growth that eliminates discontent in a manner that could be sustained over generations and scalable across a wide population that our capabilities would allow. It is a long-standing observation that India is essentially two countries – one fuelling the drive for urbanization in India’s burgeoning cities and another striving for development in the vast rural landscape of Bharat.

Usha Martin acknowledges that business and society are interdependent and there is a need to balance the interests and needs of many diverse groups in society. To be a responsible corporate citizen is a commitment and this guiding force is also reflected in the mission statement of the company –“Reinforcing our commitment to safety, health, environment and the community around us.”It is indeed a great divide, one that has seemed to widen over the past four decades. Pursuing inclusive growth to bridge this gap was one of the reasons why the Founders of Usha Martin set up Usha Martin Foundation is a Registered Society under Societies Registration Act, 1860 in Jharkhand. The vision of foundation is Social development and Economic growth of the rural community. Usha Martin, the company implement activities in the development of people, started in Angara & Namkum (neighbouring) block covering 29 villages where the plants are situated. To make a change in the living of rural community, the company provides support in implementation of sustainable models of development with regular monitoring of change in the project area with participation of people. This commitment is further reinforced as a part of the company’s SHE policy - .by conducting all operations in a manner that is protective of the environment and health and safety of employees, customers and the community. The aim of the society is to promote the growth of rural economy, develop facilities for public education and the socio-economic development, welfare and upliftment of the rural communities. Accordingly, mobilizing the community and its available resources, we sought to find a way to ensure sustainable development in the region.

Community Development Policy

Usha Martin Limited pledges itself to serve the community by:

- Designing, evolving and implementing sustainable community development programmes in its area of influence that lead to measurable socio-economic development of the community.
- Involving the beneficiaries in all stages of the process in the true spirit of participatory development.
- Having a focused and transparent beneficiary selection criterion, that provides for equal opportunity, favors the economically weaker sections and promotes enthusiasm.
- Partnering and networking with central and state governments, development bodies and NGOs to implement appropriate community development programmes.
- Involving the employees in volunteering for community development programmes.

The main focus of the policy is sustainable development of tribal and underprivileged community through participatory development programme. As one shifts more and more towards working in participation with the target beneficiaries, the structure of project implementation changes and ownership of development has started becoming evident. Usha Martin became more project-oriented engaging with various institutions to understand the needs of rural communities that would make a real measurable difference in their lives.

Usha Martin philosophy is market-based bottom-up approach of integrated interventions that are multi-disciplinary and integrated to effectively deliver and impact poverty reduction strategies. Usha Martin model is conscious about abdication of personal financial gain and tends to support social entrepreneurship among the communities by advocating effective use of resources and available capital which is in contrast with the conventional charity approach. Decades of government-led and entitlement-based approach to charity towards the local communities of Jharkhand yielded poor results. Human Development Index (HDI), per capita income, per capita consumption and other socio-economic indicators for the local community was abysmally low. Secondary data from different official reports and websites provided enough material to preliminarily analyse the broader trends of socio-economic conditions of local communities. The needs were many and basic in nature. While others take these for granted but the reality is that we cannot deliver on rural development unless we develop water infrastructure for drinking and agriculture; provide access to energy; stabilize the domestic environment by tending to the health needs of the mother and child and deliver education; empower women towards an earnings-based vocation; build capacity through training and create market linkages to enable an opportunity to increase income.

Mission

To create an equal and sustainable society by empowering poor, tribal and marginalized Communities and farmers.

Vision

Engaging society to become active and supportive partners, advocating and supporting community for sustainable development.

CSR Mission and Strategy

- ✚ To achieve inclusive growth in our areas of operations and neighboring communities through integrated community and rural development that is sustainable, scalable and adaptable by transforming beneficiaries to become producers, entrepreneurs and customers.
- ✚ To be a responsible corporate citizen by driving inclusive growth with social equity, strengthening sustainable development and an active participant in nation building process

The Organization's CSR initiatives focus on following thrust areas

Evaluation methodology

The research team followed a strategic methodology to conduct a qualitative evaluation study. The available programmes related data was analysed and multiple evaluation stages along with appropriate information collection tools viz. questionnaires, interview schedules, observation sheets were created for each programme component. Appropriate sampling of project sites/ locations as well as beneficiaries was done to receive justifiable information for the qualitative research.

The following processes were followed as per the evaluation methodology:

- ❖ Programme information review – data evaluation. The team reviewed all necessary information available with the Organisation with regard to each programme.
- ❖ Beneficiaries and project sites sampling
- ❖ Site visits, interviews, Group Meetings and FGDs
- ❖ Observation research

Outcomes

The primary outcomes along with the relevant output data have been shared in this brief report.

CHAPTER 2: PROJECT AREA

The Project Area includes 18 villages of three blocks Angara, Namkum and Kanke of Ranchi District. List of villages are given in the following table

Block	No. of Villages	Villages covered under CSR activities by UML
Angara	08	Baheya, Chatra, Masu Hahaey, Hesal, Lupung Bedwari, Angara
Namkum	07	Mahilong, Arrah, Baram Tati East, Tati West Silwai, Haratu
Kanke	03	Lalganj, Khatanga, Pairshol

CHAPTER 3- THEMATIC INTERVENTION

NATURAL RESOURCE MANAGEMENT

Energy is required for the evolution of life forms on earth. We obtain energy from different sources. The natural resources that we use today are the prime source of energy for the day-to-day activities of humans, without which we would still be lurking around in the Stone Age.

Management of natural resources refers to the plan of action related to renewable and non-renewable resources. Natural resources like land, soil, water, plants and animals are affected by global warming, overpopulation, industrial expansion and other related reasons; therefore the management of natural resources is important:

1. To maintain a balance in the ecosystem.
2. To avoid further destruction of the environment.
3. To avoid over-consumption of natural resources.

Issues of the Project Area

Issues in the area mostly relate to land deterioration, water-related issues and land-use changes due to Unsustainable Agricultural Production. Unsustainable practices have serious impacts on people and the environment. Pesticides, fertilizers and other toxic farm chemicals can poison fresh water, marine ecosystems, air and soil. Agricultural production consumes excessive water and degrades water quality. This adversely impacts freshwater systems. Many farming practices—such as burning fields and using gasoline-powered machinery—are significant contributors to the buildup of greenhouse gases in the atmosphere. With an effective NRM policy in place, it is possible to address these issues.

Program's Objectives

- To encourage farmers for advance Agriculture practices
- Ensuring Food availability in the Project Area
- Ensuring sufficient water availability for agriculture
- To ensure Good Agriculture

practices **Activities undertaken by the**

Organization *Facility of Drinking Water*

Agriculture production is highly dependent on water and increasingly subject to water risks. It is also the largest using sector and a major polluter of water. Improving agriculture's water management is therefore essential to a sustainable and productive agro-food sector; therefore Usha Martin Foundation undertaken the activities like Hand Pump Repairing and Construction of Jalminar for Drinking Water.

Irrigation facility to Farmers

For the efficient distribution of available water and to avoid the problems of Land Acquisition, use of pressurized pipe system wherever feasible is encouraged .Usha Martin Foundation focuses on water use efficiency at farm level through precision/irrigation and hence installed Drip Irrigation in the Project Area.

Distribution of Seeds

To boost agricultural productivity, Usha Martin Foundation has distributed seeds (Mung, Arhar, Urad and Chana Dal), Vegetable Seed, Wheat Seed and Fruit Plants etc., to the farmers.

Distribution of Farm inputs

Other Farm inputs like Spawn, Net and Feed has also been provided to the Farmers.

Soil Testing

A soil test is important for several reasons: to optimize crop production, to protect the environment from contamination by runoff and leaching of excess fertilizers, to aid in the diagnosis of plant culture problems, to improve the nutritional balance of the growing media and to save money and conserve energy by applying only the amount of fertilizer needed. The organization has done Soil Testing Activity in the project area to overcome agriculture related problems.

SRI Practice with Farmers

The System of Rice Intensification (SRI) is gaining popularity among small and medium farmers in not just because it has high potential in increasing rice yield, but also because it uses much less seed and water .Farmers have reaped success with SRI method of cultivation provided by Usha Martin Foundation.

Sl.	Activities	Total Nos
1	Hand pump repairing	515
2	Drip irrigation installation	34
3	Jalminar for drinking water	310
4	Distributed of Mungdal, Arhar, Urad & Chana seeds	340
5	Soil test	88
6	Spawn/Net/Feed Distribution	24
7	Forestry/Fruits plant distribution	40
8	SRI with progressive farmer	53
9	Wheat seed distribution	15
10	Seed Distribution (Vegetable)	599

Impact

- ❖ Ensured sustainable yield protected the environment with development of livelihood
- ❖ Improved the safety and quality of food and other agricultural products
- ❖ Reduced the risk such as hazards of pesticide, other chemicals, microbiological, physical contamination etc.
- ❖ Promoted sustainable agriculture thereby meeting social development objectives.

Outcome

Outcome can be defined in four categories:

Economic Viability

- Improved the cost of production
- Provided an additional rate of return
- Improved the economic viability of agriculture
- Increased farmer's welfare

Environment Sustainability

- Farm produced long-term crops
- Agricultural practices and livestock don't negatively impact the environment.

Social acceptability

Usha Martin Foundation contributed to society by:

- Providing food and other essential materials for citizens
- Acting as the economic backbone of rural communities

Food Safety and Quality

- Good hygiene practices in agriculture helped to reduce the emergence and spread of antimicrobial resistance along the food chain
- Reduced the risk of harmful contamination of produce
- Quality and shelf-life of product is maintained and spoilage reduced

HEALTH & NUTRITION

Usha Martin Foundation's comprehensive and community-centric health programme takes primary healthcare services to the doorsteps of underserved communities. They provide high quality and affordable primary medical care to low-income and underprivileged groups in Jharkhand. Their aim is to make healthcare accessible to the poorest and the most deprived sections. Following a two pronged approach, the programme provides curative as well as preventive services, addressing the gaps in availability, accessibility and affordability of healthcare. The Organization is working in various areas such as child and reproductive health, nutrition, early identification of diseases, and treatment of endemic and communicable diseases.

During the recent past, the Organization adopted a conscious change in approach, moving to the Phygital mode of implementation of health programmes, including various camps, Life Style Promotion, Health Session Program, Nutrition Promotion etc. which strengthened its reach and expanded its ability to reach out to the community.

The Organization is also concern for enhancing the state of the physical, social, mental and emotional well-being of people. This is done through interventions like courses, classes, workshops and one-on-one interactions. The programmes are designed based on integrating various modalities of well-being like yoga, nutrition, counseling, etc.

Issues of the Project Area

One among the numerous challenges is the lack of access to quality services for the poor and marginalized communities.

There is widespread hunger, high levels of morbidity, higher rates of chronic health problems and a vast unmet need for curative health care. The following are some of the major issues we see among our patient population and are working to address:

- Less access to health care
- Hunger and under nutrition
- Malaria
- Tuberculosis
- Maternal Health
- Malnutrition
- Low rates of vaccination

Program's Objectives

The Organization aims to ensure a successful, high-quality and sustainable healthcare system that effectively adapts to the needs of the population and is accessible to all residents of its Project Area. Following are the major objectives of our Healthcare Program:

- Reducing the burden of chronic diseases in children, adolescents and adults
- Including vulnerable individuals in preventive healthcare, and
- Introducing the community approach model for health promotion and reducing healthinequalities in local communities.

Activities undertaken by the Organization

Organizing Health Camps

The Organization is envisaging better health and related facilities for the tribal society. To encourage people to be proactive about their health and make preventive tests a habit, the free medical camp embraced Eye Check-Up, Dental Check-Up, Multispecialty Health Check-Up, in collaboration with renowned doctors of reputed hospitals.

These timely interventions provide early diagnosis and treatment reducing the incidence of morbidity and mortality. Such health camps address immediate health care needs of the marginalized communities.

Implementing healthy lifestyle promotion

Lifestyle-related illness and disease, such as cardiovascular diseases, cancers and diabetes, are a leading cause of death worldwide. Healthy lifestyle promotion is the promotion of an active lifestyle, healthy eating habits, tobacco cessation and moderate drinking of alcohol including screening for risky lifestyle, brief advice about healthy living and extended counseling. The organization is therefore encouraged to integrate healthy lifestyle promotion in routine care.

Supportive supervision of VHND

This VHND program was conceived to get an insight in to the quality of service delivery in the districts, to identify the gaps and highlight best practices. VHND was introduced with an aim that it could bring about the much needed behavioral changes in the community, and can also induce health-seeking behavior in the community leading to better health outcomes. Main objectives of the program are:

- To provide essential and comprehensive health & nutrition services to pregnant

women, lactating mothers, children (0-5 yrs) and adolescent girls

- To strengthen linkages between Health & ICDS in promoting comprehensive maternal & child survival programmes
- To ensure early registration, identification and referral of high risk children and pregnant women
- To provide an effective platform for interaction among beneficiaries, service providers, and community members including Mothers Group, PRI, and SHG To sensitize beneficiaries, their families and community members on health, nutrition care and services at village level through discussion of various health topics as envisaged in the Health Calendar
- To render quality health and nutrition services to beneficiaries at door step through home visits, referrals services and follow ups.

Immunization Program

Usha Martin Foundation believes that Immunization is the most cost effective Public Health intervention, since it provides direct and effective protection against preventable morbidity and mortality. The Organization aims to conduct immunization for underprivileged children.

Our Immunization Program provides free of cost immunization to the underprivileged children and protects them from several life threatening diseases. In each camp, children aren't just provided a shot of vaccine, but are also checked for vitals and any delays in their developmental milestones. Additionally, children and parents are educated about the importance of vaccines for prevention of diseases.

Health Session at Village and School level

The health promotion activities have been implemented in targeted villages as well as government and government aided schools to fulfill following objectives:

- To provide age appropriate information about health and nutrition to the children in schools
- To promote healthy behaviors among the children that they will inculcate for life
- To detect and treat diseases early in children and adolescents including identification of malnourished and anemic children with appropriate referrals to PHCs and hospitals
- To promote use of safe drinking water in schools

Awareness Program on HIV/AIDS and Tuberculosis and Supplementary food distribution to TB patients

The Organization has implemented awareness campaigns on HIV/AIDS and Tuberculosis. The campaign endeavors to generate awareness regarding prevention of HIV/AIDS and TB, promotion of related services and reduce stigma and discrimination related to HIV/AIDS and TB.

The organization has also conducted a nutrition programme for TB patients and provided nutritional supplements to the patients suffered from TB.

Village Health Committee Meeting

In order to take collective actions on issues related to health and its social determinants at the village level, a Village Health Committee Meeting was conducted. The committee is envisaged to take leadership in providing a platform for improving health awareness and access of community for health services, address specific local needs and serve as a mechanism for community based planning and monitoring.

Nutrition Promotion through Kitchen Garden

We have facilitated the kitchen garden programme in our Project Area. This is done to ensure nutritional security for the member families apart from promoting health initiatives such as sanitation, personal hygiene, and safe drinking water. The concept is promoted to ensure nutritious food to the member family.

Sanitary Pad distribution

In order to promote safe menstrual hygiene practices by girls, Sanitary Pad distribution to the adolescents has been done.

Yoga Program

Yoga Program has been conducted to promote yoga and meditation through Health & Wellness Ambassadors

4 COVID -19 Vaccination camp

We have arranged COVID Vaccination Camp at our Project Area, in Which 99 People were vaccinated.

Sl.	Activities	Total Nos.
01	General Health, Eye/Dental camp & Life style promotion	2944 Patients
02	Supportive supervision of VHND/ immunization program	54 VHND
03	Health session (village & school)	39 Students
04	Covid -19 Vaccination camp	99 COVID Tests
05	AIDS/ TB/Other health awareness	66 Patients
06	Village health committee meeting	265 People
07	Kitchen Garden (Nutrition promotion)	154 People
08	Sanitary pad	1790 Women
09	Supplementary food distribution to TB patients/ TB health awareness	60 Patients
10	Yoga program	666 Students

Impact

Health interventions by Usha Martin Foundation reached 6137 individuals in the last Financial Year, with the aim to impact the lives of communities in the areas of maternal and reproductive health, child health and nutrition, Endemic and communicable diseases. Significant improvements have been made in the quality of healthcare delivery services and health and nutrition outcomes of people such as institutional delivery, newborn care, infant and child feeding practices and child immunization have contributed to reducing infant and child deaths. Through HIV/AIDS and Tuberculosis intervention, there has been a steady decline in the number of cases reported.

People got aware of Health and Sanitation issues and its cure through various Camps, Health Session, and Village Committee Meeting etc.

EDUCATION & LEARNING

Usha Martin Foundation design and implement high-quality, scalable solutions to achieve improved student engagement and a focus on academic outcomes. The Organization plays a significant role in ensuring that every child, especially those from vulnerable communities, receives the opportunity to build a better future through education. We work at the grass-root level to strengthen the education system, spread awareness about the importance of education and enroll as many children as possible so that they can thrive in life.

Through workshops and various activities, awareness is generated amongst parents and local communities about the importance of education. Usha Martin Foundation also conducts regular counseling sessions to encourage parents to send their children especially girls to school and help them participate in various activities.

We conduct multiple activities in schools that help students learn their rights, build skills and develop confidence. We also focus on Quality Education and hence strengthen school infrastructure, provide books, computers and other learning materials to children and schools in need.

Issues of the Project Area

Following are the issues of Educational System in our Project Area:

- **Lack of quality teachers and poor attendance of Teachers and Students:** One of the major problems of education in our Project Area is the lack of quality teachers. Another issue is the poor attendance of teachers and students. This problem is a vicious circle.
- **Lack of Transport:** Lack of transport is also the major issue. Students are unable to commute the long distances from their homes to the school premises.
- **Poor Infrastructure:** The construction of schools is also below satisfactory. The condition of many schools is in a pathetic state with broken walls, poor lighting and poor sanitation.
- **Lack of Finances:** Another challenge we face is the Lack of Finances. As the finances are low, the rural population finds it burdensome to spend on the education of their children. As a result, a large portion of the youth in the rural sector stays away from school.

Program's Objectives

Following are the objectives of our Educational Programs:

- To increase the number of school going children
- To develop other learning skills in local schools & communities through quality Education
- Providing inclusive education to children with special needs
- To bring sustainable change in the lives of the children with a life-cycle approach of development.
- To maintain infrastructure facilities of schools

Activities undertaken by the Organization

Repairing of “Kanya Vidyalaya”

We encourage learning by improving the Infrastructure of Government Schools; therefore we have undertaken repairing of “Kanya Vidyalaya” in our Project Area.

Distribution of teaching and learning materials

In order to promote safe, inclusive, and effective learning environment under SDG 4, the Organization has distributed Computers and Books among the students of our Project Area.

Village Education Committee Meeting

The Village Education Committee Meeting was conducted to address the various issues particularly the issue of access to disadvantaged groups, and out of school children, Improving school effectiveness, Strengthening the non-formal education system and other alternatives to schooling aswell as planning and organizing school improvement programmes.

Sl.	Activities	Total Nos.
01	Running Sanskar Kendra	1126
02	Repairing of Kanya Vidyalaya (UM PANG)	204 students
03	Infrastructure Development	301 students
04	Distribution of Computer and Books for Quality Education	305
05	Village Education Committee Meeting	335 villagers

Impact

Through our Educational Programs, we have improved access to education and promoted educational quality. We also worked to provide support and resources to help improve educational opportunities for children and adults. Our endeavors resulted in decreasing school dropout rate and increasing school going children in our Project Area. We have also supported in repairing and Infrastructure Development of many schools of our identified location which encouraged parents and students and therefore more number of students have been enrolled at schools.

SKILL AND LIVELIHOOD ENHANCEMENT

Our Organization believes in inclusive growth through building the capacity of people from underprivileged section of the society. It supports Livelihood Generation Programs for creating opportunities, enhancing skills and facilitating enabling environment that empower associated communities to explore more possibilities for better income generation. We are implementing programs in the field of improved agriculture, livestock management, skill development, financial literacy and entrepreneurship development. These programs are designed with participation of the local communities and using their knowledge to make the initiative sustainable.

Usha Martin Foundation has made significance contributions to upgrade agricultural techniques and encourage vegetable farming on a large scale. Fruit bearing saplings have been distributed to the poor rural families for plantation. Vegetable seeds and seedlings have also been distributed. To encourage the tribal villagers to adopt modern agricultural techniques, meeting with SHG Members and Farmers are organized at village level from time to time.

We provide skill enhancement trainings which can generate employability. Some of the trainings are Training on Agriculture, Vegetable Farming, Fruit Plant , etc. The organization is also assisting the trainee in getting employment.

Issues of the Project Area

In achieving the major objective of enhancement of rural livelihoods, the main areas that need to be taken into consideration are, poverty alleviation, innovative approaches in creating better livelihoods opportunities, basic amenities and infrastructure facilities and wage and self-employment. In rural communities, it is vital to ensure that individuals are able to generate sufficient income through which they would be able to augment their living conditions. In rural areas, individuals normally have large families; there are more than two children in a nuclear family. Therefore, in order to sustain their living conditions, the individuals are required to adopt more than one task or activity. In most cases, individuals belonging to rural communities migrate to urban areas to acquire job to enhance their living conditions. It has been found that they not only obtain employment opportunities in urban communities, but also are seeking enrolment in higher educational institutions to enhance their educational qualifications. Hence, it can be stated that rural individuals are generating information regarding programs, schemes and measures that would lead to up-gradation of their livelihoods opportunities.

Program's Objectives

Following are the major objectives of our Skill and Livelihood Enhancement Program:

- To increase employability, reduce unemployment, raise wages, and boost living standards
- To enhance the abilities and thus opportunities of the Rural Poor by equipping them with necessary and relevant skills
- To help people in learning the appropriate skill and then finding a source of livelihood based on that
- To increase crop productivity
- To create awareness amongst target farmers regarding best practices in agriculture and Livestock
- To generate awareness amongst farmers regarding best farm technologies
- To make community confident, self-reliant and to develop in them the ability to be a part of decision making

Activities undertaken by the organization

Meeting with SHG

A meeting has been organized with the SHG members. In this meeting, necessary guidance and support inclusive of monitoring their books of accounts and such was extended by the members of the NGO. Under the shade of it, many of the groups had taken up certain livelihood activities within their periphery of skill and resources.

Meeting with Farmers

In order to promote income generation activities by developing agriculture and crop production, a meeting was organized with the farmer's group of our Project Area.

Exposure Visit to support villagers

One Day Exposure visit was organized in our project area to promote sharing knowledge and experiences while allowing Farmers to view evidence-based successful climate resilience practices and farm-based innovations. Total 25 Farmers have been supported through this Exposure Visit.

Distribution of Dragon Fruit Plant

With the growing interest in farmers and the quick returns that they are getting from cultivation of Dragon Fruit in agricultural and marginal lands, distribution of Dragon Fruit Plant has been done to 21 Farmers of our Project Area.

Distribution of Strawberry Plant

In view of the demand for Strawberry cultivation, Usha Martin Foundation is working to encourage its cultivation. Keeping this in view of the demand of the farmers, Strawberry Plant has been distributed to 13 Farmers of our Project Area.

Mushroom Seed distribution

With an aim to skill the rural community in mushroom farming and providing a platform to strengthen their entrepreneurial qualities, distribution of Mushroom seeds have been done by the organization.

Cash Crop Promotion

We have initiated Promotion of Cash Crop in our Project Area. It aims to increase production of sugarcane, tobacco and oilseeds (mustard and rapeseed). It will improve support services for these crops and will build on existing efforts to upgrade agricultural extension

Establishment of Polyhouse Nursery

Usha Martin Foundation Knows that capacity to produce food all year round is only one of the many advantages of using Poly houses rather than traditional agricultural methods; therefore Polyhouse Nursery has been established in the Project Area.

Training on Kitchen Garden

The Organization focuses on promoting Kitchen Garden. The initiative aims to reduce malnutrition by enabling communities to grow vegetables and fruits rich in micronutrients. We target vulnerable and marginalized communities and families with a high prevalence of malnutrition and anaemia, which includes both, Severe Acute Malnourished (SAM) and Moderately Acute Malnutrition (MAM) children. To fulfill this endeavor, we have conducted training on Kitchen Garden.

Training on Jute Craft

The Organization has conducted a training program in jute manufacturing. The jute product designing aims at replacing plastic bags, providing livelihood for participants after completion of Training.

Sl.	Activities	Total Nos.
01	SHG meeting	493 villagers
02	Dragon fruit plants distribution	21 farmers
03	Cash crop promotion	34 people
04	Exposure visit and support to villagers	25 farmers
05	Duck farming	11 people
06	Kitchen Garden training	397 people
07	Village meeting (Farmers)	28 farmers
08	Strawberry plants distribution	13 farmers
09	Establishment of polyhouse nursery	60
10	Jute training	11 people
11	Mushroom seed distribution & training	212 people

Impact

Our efforts have resulted in better socio economic conditions of various communities. Our programs aim to create an opportunity for them to escape the cycle of poverty by creating opportunities at various levels. We focus on creating local opportunities where possible, up skilling them in their existing occupations be it agriculture or allied businesses such as dairy, poultry etc. Each of these initiatives is tailor-made to address the prevailing market conditions and geography.

TRAINING & CAPACITY BUILDING

We work to alleviate poverty and empower the underprivileged through various activities, such as training, mentoring, networking, advocacy, and resource mobilization. We work towards training young people from vulnerable backgrounds. We are putting in our efforts to make youth skilled and employed through our various training programs and to give them marketable skills so that they can get permanent employment easily for a Sustainable Livelihood. We also work towards empower young women and girls of Jharkhand by providing them with the tools, opportunities, and support they need to discover their voice, exercise their choice, and transform their lives.

The Organization is implementing various training programmes. We are imparting effective and quality capacity building, support in providing trainings by experts and experienced trainers and also provide handholding support to our Beneficiaries.

Issues of the Project Area

Rural and remote areas often experience a range of difficulties that impede their social and economic growth, such as limited access to services, infrastructure, and opportunities; geographic isolation and low population density; high levels of poverty, unemployment, and

inequality; environmental degradation and climate change impacts; and cultural and linguistic diversity and marginalization. These issues can have a detrimental effect on the health, well-being, and livelihoods of rural and remote communities, and can limit their capacity to participate in community outreach and development initiatives. Capacity Building Program can help to address these challenges by improving the skills and confidence of community members and leaders, reinforcing the relationships and collaboration among community groups and stakeholders, increasing the availability and accessibility of resources and information, improving the representation and voice of rural and remote communities in decision-making processes, and promoting the recognition and appreciation of local culture and values.

Program's Objectives

We aim to empower communities to become more self-reliant, resilient, and sustainable, and to foster a sense of ownership and participation among community members. The major objectives of our Training and Capacity Building Program are:

- To create awareness
- Transfer of skills and know-how
- To promote decentralization
- To encourage and motivate the knowledge sharing among Participants
- To grow Youth Productivity
- Expansion of skill sets
- Rise in the young people's performance

Organization Training on Strawberry Cultivation

There is insatiable demand in the market for the fruit and after looking this demand, we have Offered trainings to people willing to succeed in strawberries farming.

Tailoring Training

We have provided skills training in tailoring to Women Group. During this training, women have learned and developed skills in tailoring.

Training on Plantation

A training Programme on Plantation was organized by our Organization. The main objective of the training was to demonstrate and impart the skill of participants in plantation.

Training on Mushroom Cultivation

We have imparted training to the rural farmers and unemployed youths who wish to grow Mushroom at low level with a limited investment.

Training on Polyhouse Nursery

Poly house farming is growing in India as it provides better income in a short period of time with less labor. Usha Martin Foundation conducted training on Poly House. The basic objectives of this training are:

- To provide technical skills to establish small commercial poly house unit
- To provide training in the planting of seedlings, preparation of bed, soil sterilization, pestand disease management in poly house.
- To impart basic technique in production of flowers in playhouse like Gerbera, Carnation, Rose, color capsicum & cucumber, etc.

Paper Cup and Plate Training

Training on Paper Cup and Plate has been provided to the beneficiaries of our Project Area. There are numerous advantages of paper products like; they are manufactured in a very simple process using Food Grade Raw Materials with least waste and are easiest to recycle. They are ideal for individual servings at all kinds of parties, functions, picnic occasions, marriages, chat, tea & food joints, etc. Non-toxic in nature, the shapes and surface designs on these paper cups are attractive and present an inviting look.

Youth Empowerment Training on Motorcycle Repairing

Youth Empowerment and capacity building programs aim to teach life skills including personal, social, mental and spiritual development; therefore we have facilitated a training program on Motorcycle Repairing for the rural youths of our Project Area.

Training on Fisheries

Fisheries are a fast-growing 'Sunrise Sector' in India, which provides nutrition and food security to a large population and there are huge market demand of Fish; therefore we have organized training programme on Fish Breeding Techniques to our identified beneficiaries.

Sl.	Training & Capacity Building	Total Nos.
01	Village Meeting	46 Meetings
02	Strawberry Cultivation Training	19 farmers

03	Wheat Cultivation	11 farmers
04	Jalminar Application	82
05	Samshan Ghat Application	2
06	List of Kishan Sangathan	332 farmers
07	Tailoring Training	31 villagers
08	List of SRI	270 Villagers
09	Plantation Training	20 peoples
10	Distributed items to Ekal Vidyalay	30 farmers
11	Blanket Distribution	121 villagers
12	Lemon Cultivation	18 villagers
13	Mushroom Cultivation Training	83 villagers
14	Polyhouse Nursery Training	62
15	Paper Cup & Plate Training	85
16	Youth Empowerment Training (Motorcycle Repair)	32 peoples
17	Fisheries Training	34 peoples

Impact

After initiated Capacity Building Program, the income of Rural Community has enhanced and they are now independent. They need not depend on anyone else. With these skills training youth became self-reliant and lived happily. The economic development of these community members has increased and they participated in decision making process. They taught these learnt skills to other youth who are in needy position.

OTHER ACTIVITIES

SPORTS

Rural individuals depict interest in various forms of sports activities as well as make them sources to augment livelihoods opportunities. The various forms of sports that individuals depict interest in are, running, wrestling, taekwondo, badminton, tennis, cricket, boxing, swimming and so forth. In the present world, rural individuals are getting involved in sports activities to a major extent to augment livelihoods opportunities. In order to encourage these Rural Youths; Usha Martin Foundation has initiated many Sports Activities in its Project Areas.

Issues of the Project Area

Youth of Rural India is not very much aware of the sports and its benefits. Usha Martin Foundation is therefore conducting several activities to increase participation of the rural youth in sports. The Organization is actively involved in the promotion of sports among rural youth. Also, they are dedicated in the promotion of rural and indigenous/tribal games which provides for financial assistance.

Program's Objectives

- Improvement of physical fitness.
- Improvement of mental capabilities.
- Improvement of Sports personality and physical fitness
- Performance efficiency and acquisition of sport skills
- To provide and co-ordinate a cohesive framework for sports specific development

Activities undertaken by the Organization

Distribution of Sport Items

The Organization extended its helping hands in distributing games and sports items among the rural youths of Project Area.

Sl.	Sports ,infrastructure and others	Total Nos.
01	Distribution of sports items	230

Impact

After initiating Sports Activities in our Project Area, now Rural Youth are taking interest in Sports and more numbers of Young populations of our identified area got enrolled in Sports.

Other Activities

Sl.	Activities	Total Nos.
01	Solar lights installation	282 villagers
02	Form filled	106 peoples
03	Hand pump repairing application	315 Peoples
04	Chabutra with shade	13 villagers

Bhadya became an example of Progressive Farmer

A person is an asset for the family when he is successful and in turn becomes a personality when he/she becomes a standard for the society. This is the story of Bhadya Mahto from Mahilong village. There were times when farming on self-obtained land was also not enough to manage the household and now People of Mahlong village provide their land themselves .

On this Bhadya Mahto says, “ *Humari zameen kahan hai sahib ! Gaanv wale zameen diye hain, uspar kheti kar lakho ka arjan kar rahe hain.*”

Remembering the time four years ago Bhadya Mahto states that those days was very different. Either profit or loss, he would be doing farming like an addiction or passion. He invested Rs. Four lakh rupees at a stretch in 2019 in farming but the entire amount was gone as he incurred a huge loss. At the same time, he got in touch with the supervisor of Usha Martin Academy Foundation. He has been taking nominal and substance benefits from Usha Martin Academy foundation earlier as well. He then took benefits from them on the direction of supervisor which paid him good results.

On asking what were the benefits he git from Agriculture, Bhadya mentions that once he was known as a failure in farming in the village, now the same people from the village let him the farming land to do farming. He mentions that from the support of Foundation 1000 strawberry saplings were provided which were planted in 10 dismil of land. He has earned ruppess 50000/- since last November till now which will generate income till April month. Crops like peas and French beans were also cultivated with support of foundation yielding about 35000/- rupees. He also distrubites his produce in family and neighborhood. UMA Foundation has helped to make farming his livelihood and income generating opportunities.

Promotion of Pisciculture done with scientific methods

The experience of successful Pisciculture

My name is Manoj Kumar. I belong to Silve Mankidipa. While pandemic I thought to utilize the land I own by doing Pisciculture in there. I have failed in bamboo plantation and mango cultivation miserably before this. I started Pisciculture in one acre of land in 2020. I brought spawns and tried to farm it in pond but not even five percent of fishes survived even after six months. All small spawns were eaten by frogs, crab and snakes etc., I was not able to track the mistakes and analyze the proper procedure for the less mortality.

During that time, I was enlightened by Mr. Bhubaneswar Mahto, supervisor of UMA Foundation that fish farming training has to be initiated. In 2021, with courtesy of UMA foundation, we were trained in Fisheries department of Jharkhand Government for three days. Then we realized that half knowledge is dangerous. Sowing in spawns in pond has to be accompanied by care, maintenance etc., Fishes will increase and grow even in less water provided scientific approach is taken up.

After this, I was regularly in touch with UMA Foundation's supervisors. Now I sell 7 to 8 quintals of fishes twice or thrice a year. I don't have to go anywhere. Buyers come in the village and we get good bargain in selling them. Every transaction has 10 to 15000/-. Now I am learning the techniques of Bamboo Plantation so that I could become an example in the village.

Mini Mushroom Farming

My Name is Mulu Mahto. I belong to Masu Village and I am a farmer who does mixed farming. My family members have my wife Shila Devi. I have a son and a daughter. I have a small shop and a small garden farm in which I dedicate some for kitchen garden. Initially my grocery store was at its peak but after 2021 the sales got down. My household expenses were not met properly due to this and I was very much in trouble. To cope up with this I bought five cows so that I could come out of poverty.

One day the supervisor from

UMA Foundation told me that I could mushroom cultivation in a small space which is high yielding. He suggested that with dairy, I should continue mushroom farming simultaneously. I was excited that I could do this. I was given the training for mushroom cultivation by UMA foundation. I started the farming with seed money of Rupees 500 after which UMA Foundation gave me mushroom seeds. I made 50 bags of mushroom from it and earned a

profit of Rs. 10000 where 30 bags are yet to be taken up. I got immense benefit in Mushroom farming. I tell other people in masu village the techniques of mushroom farming in small place and earn income from it.

Farming with Self Dependence made me Successful Entrepreneur

My name is Premnath Mahto. I belong Masu village of Hesal Gram Panchayat. Initially I used to work at Sarojini ITI where my monthly income was 7000 per month which was not enough for keeping up my household. Today, I am a self-dependant farmer. Farming made me a successful entrepreneur. Now I motivate the other progressive farmers in village for generating livelihood and rise in income opportunities.

Remembering his old days, he mentions that before 2020 he used to grow paddy and somehow manage his household. Due to lack water availability, life conditions were miserable. Farming was going well but the impact and benefit was not seen. My wife Mamta Devi met a supervisor from UMA foundation while the pandemic hit the country which led us to farm high yield shrividhi paddy cultivation which increased the produce. After that, I went in training

where I realised that farming could be a medium of self-dependence for me. We got drip irrigation to meet the lack of water facility which helped us do farming in less amount of water. Once the officials of UMA foundation told me to be the lord if this amount of land is owned by you. I felt that to my heart and started working on it.

Then since 2021, I started more coverage for farming. We planted water melon in two acres in total with support of UMA Foundation. I earned more than one lakh from this. I earned 3.5 lakhs by selling about 20 tons of water melon where half

of it was our profit. In 2023, we cultivated water melons in 3 acres for which seeds and training from UMA

Foundation. We also cultivated strawberries in 7 dismils of land with support of UMA Foundation. From with about 80000/- has been our earning. The produce is being sold in market till now. Last year, we planted chilies which were worth 90000/- in market rate with support of the company. Now I say that If you can do farming, it's better to be the entrepreneur than taking a job elsewhere and make our neighborhood and locality self-dependent too.

Mushroom Cultivation

Jagni Devi and Vishnu Pahan is a couple residing in Silve Basti of Silve Panchayat of Namkom Block of Jharkhand. Jagni Devi is a housewife and her husband is an auto rickshaw driver. Auto rickshaw was not fetching good income for him to survive due to which Jagni Devi was unable to take care of the household and education of their children. Jagni Devi was once told about the Mushroom farming and training provided by UMA Foundation. This made her realise that she could earn additional income from mushroom cultivation sitting at home herself and taking care of everything is she gets the training and opportunities. Then she requesting for mushroom seeds fro UMA foundation CSR and gave them 600 rupees for that. Jagni Devi mentioned that her family faced a lot of problems in pandemic when auto rickshaws were not plying on the road due to restrictions and hence no income was generated. She earned profit of Rs. 9000 from Mushroom cultivation at home which made her feel very happy. She started one Snack Shop nearby her house with that amount as seed capital and with that she was also selling mushrooms simultaneously. This slowly brought them out of poverty.

Chapter 5: Master Plan for next 5 years

The Following Activities shall be carried out in 10 villages under CSR

Master Plan of 05 Years for CSR 10 Villages	
(Tati, Haratu, Ara, Mahilong, Silwai, Chatra, Masu, Angara, Lupung, Lalganj)	
No	Activities Pillars
Capacity Building of Villagers	
1	Nursing training for rural women
2	Training of Tailoring and fashion Designing
3	Beautician Course for young girls
4	Computer training for youth
5	Plumbing
6	Repairing and maintenance of two wheeler
7	Training of repair of Home appliance
Enhancing Health & Nutrition	
1	Antenatal coverage to Children
2	Institutional Delivery
3	Anaemia Prevention (Girl & Women)
4	Enhancing Public Health (Mobile Camp)
5	Cataract Operation
Promotion of Agriculture Activities	
1 Promoting Water Conservation	
a)	Drip Irrigation
b)	Well/Dova/Jalminar Repair/ Construction
c)	Water harvesting Structure
2 Conservation of Environment	
a)	Multi Cropping/SRI
b)	Horticulture/Social Forestry
c)	Soil Test
Cash Crops Promotion for livelihood	
a)	Farmers linkage to Strawberry/ Dragon fruits
b)	Promotion of cash crops in farmers
c)	Mushroom Cultivation for Livelihood
4 Promotion Renewable Energy	
a)	Installation of Solar Street light
b)	Solar Water Pump
Promoting Education, Sports & Others	
1	Infrastructure Development of School/ AWC's
2	Providing Books/ Computer
3	Development of Adivashi Children through Eakal Vidyalay
4	Promotion of Sports in village

Chapter 6: Recommendation:

The Policy recognizes that corporate social responsibility is not merely compliance; it is a commitment to support initiatives that measurably improve the lives of underprivileged by one or more of the following focus areas as notified under Section 135 of the Companies Act 2013 and Companies (Corporate Social Responsibility Policy) Rules 2014.

Scopes: Education:

- Awareness Programmes on girl education. Counseling of parents Special attention on education, training and rehabilitation of mentally & physically challenged children/persons.
- Spreading legal awareness amongst people and disadvantageous sections of the society about their rights & remedies available.

Water Supply including Drinking Water:

- Installation/Repair of Hand Pumps/Tube Wells.
- Digging/Renovation of Wells.
- Formation of a Task Force of Volunteers to educate people regarding proper use of drinking water.
- Empowerment to the villagers for maintenance of the above facilities for availability of water

Health Care

- Organizing, health awareness Camps: AIDS TB and Leprosy, Social evils like alcohol, smoking, drug abuse etc.
- Child and Mother care
- Organizing Blood donation camps.

- Fully equipped Mobile Medical Vans.

Social Empowerment:

- Training of Rural Youth for Self Employment on Welding, Fabrication, and other Electronic appliances.
- To provide assistance to villagers having small patch of land to develop mushroom farming, medicinal plants, farming & other cash crops to make them economically dependent on their available land resources.
- Training may be provided by agricultural experts for above farming.
- Organizing training programmes for women on tailoring Embroidery designs.

Sports and Culture:

- Promotion of Sports and Cultural Activities for participation in State and National level.
- Promotion/Development of sports activities in nearby villages by conducting Tournaments like Football, Kabaddi and Khokho, Cricket etc.
- Providing sports materials for Football, Volleyball, Hockey sticks etc. to the young and talented villagers.

TO WHOM IT MAY CONCERN

On the basis of Books of Accounts, Fixed Assets Register and other related documents and Vouchers, which we thought necessary for certification purpose, provided by Usha Martin Ltd, (WR&SPD) Tatisilwai Ranchi, Jharkhand having CIN: L31400WB1986PLC091621, we hereby certify that the Project Cost of CPP (Captive Power Plant) as on 31-03-2022 is evaluated as per below:

Assets Description	Total Cost (Gross Value)
Land	Existing Land
Plant & Machinery	90,34,14,604.59
Building	26,05,35,277.33
Infrastructure	17,91,95,462.81
Total	1,34,31,45,344.73

Note:

- 1. Gross Value of Assets given above means Original Cost i.e without taking effect of Depreciation or retirement of any Assets.**
- 2. Plant & Machinery also includes Pollution control equipment's exact segregation of these equipment's from P & M is not possible because company is not recorded it properly in its books.**
- 3. Above Figures are taken from Books of Accounts as provided by Management as on 31-03-2022.**

Compliance Status of Office Memorandum on dated 11th Nov'20 against File No: J-13012/8/2009-IA.II (T)

Usha Martin Ltd, 2x10MW CPP, Tatisilwai, Ranchi

Respected Sir,

We have noted the content and hereby submitting the compliance status for your record.

Point No: 7

In order to simplify the procedure for change in coal source and encourage Thermal Power Plants to use domestic coal, the Ministry has decided the following procedure:

All the Thermal Power Plants (including Captive Power Plants) having Environmental Clearance can change the coal source (from imported to domestic, domestic to domestic, and domestic to imported) including Lignite, directly through e-auctions/short term linkage/long term linkage/other linkage options of Ministry of Coal or any organisation recognised for allotting coal linkages, without seeking the amendment in Environmental Clearance, subject to the following conditions and thereby making earlier conditions in the EC regarding coal source redundant:

- A) Details regarding change in source (location of the source, proposed quantity, distance from the power plant and mode of transportation), quality (Ash, Sulphur, Moisture content and Calorific value) shall be informed to the Ministry and its concerned Regional Office. The quantity of coal transported from each source along with the mode of transportation shall be submitted as part of EC Compliance Report.

UML Compliance Status: Complied. Proposed planning for FY24-25is furnished for record.

Year	Proposed Coal Source	Proposed Qty	Mode of transportation	Proposed Ash %	Proposed Sulphur %	Proposed GCV (kcal/Kg)
2022-23	<ul style="list-style-type: none">Through e-auction, CCL & JSMD C Coal Mines & also Coal from TATA West Bokaro, Jamadoba & HEC, Ranchi etc.)We have executed FSA with CCL under NRS linkage for supply coal to CPP located at Tatisilwai, Ranchi.	0.183 MTPA	Road, Vehicles are fully covered with tarpaulin	Range : 34 to 40%	< 0.2%	Range : 4001 to 4501

- B) The applicable flue gas emissions standards for Particulate Matter, Sulphur Dioxide, Oxides of Nitrogen and Mercury shall be complied in line with Ministry's Notification vide S.O.

3305(E) dated 7.12.2015 and subsequent emissions. A progress of implementation and its compliance shall be submitted as part of Compliance Report.

UML Compliance Status: Complied. Report submitted.

- C) Ash content in the Coal and Coal transportation is governed by the Ministry's Notification vide S.O. 1561(E) dated 21.5.2020. As far as possible, Coal transportation shall be done by rail/conveyor or other eco-friendly modes. However, road transportation is allowed with tarpaulin covered trucks till the railway/conveyor belt infrastructure is made available. A progress (Physical and financial) of rail connectivity from nearest railway siding or conveyor connectivity to the power plant shall be submitted in the EC compliance report.

UML Compliance Status: Complied. Report submitted.

- D) Additional ash pond is not allowed due to increase in ash content in the raw coal as against the ash pond permitted in the Environmental Clearance. The 100% flyash utilisation is to be achieved within 4 years in line with Flyash Notifications dated 14.9.1999, 27.8.2003, 3.11.2009 & 25.1.2016 and amended time to time or extant regulations on Fly ash Utilisation.

UML Compliance Status: Complied. Fly Ash Utilization Report submitted.

- E) In case of exceptional circumstances, project proponents may approach the Ministry for seeking permission to use an emergency ash pond with cogent reasons, if any.

UML Compliance Status: CPP utilized 100% generated fly ash in past years and report submitted.

- F) The details regarding monthly generation, utilisation and disposal of flyash (including bottom ash) shall be submitted to the Ministry and its Regional Office.

UML Compliance Status: Complied.

We trust the information furnished by us shall meet your requirement.

Thanking You

Yours faithfully,
For **Usha Martin Limited**
